STATEMENT AS MARCH 31, 2024 OF ASSURED GUARANTY CORP.

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of Assured Guaranty Corp. (the "Company" or "AGC") are presented on the basis of accounting practices prescribed or permitted by the Maryland Insurance Administration ("MIA"). The MIA recognizes only statutory accounting practices prescribed or permitted by the state of Maryland for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the Maryland Insurance Law. The National Association of Insurance Commissioners' ("NAIC") *Accounting Practices and Procedures Manual* ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the state of Maryland. The Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices.

A reconciliation of the Company's net income and capital and surplus between practices prescribed and permitted by the Maryland Insurance Commissioner and NAIC SAP is shown below:

C. Accounting Policies

There has been no significant change since the 2023 Annual Statement.

D. Going Concern

There are currently no conditions or events to cause management to have any substantial doubt about the Company's ability to continue as a going concern.

2. Accounting Changes and Corrections of Errors

There has been no change since the 2023 Annual Statement.

3. Business Combinations and Goodwill

A. Statutory Purchase Method. There has been no change since the 2023 Annual Statement.

B. Statutory Merger. There was no statutory merger in the first three months of 2024.

C. Impairment Loss. There has been no change since the 2023 Annual Statement.

4. Discontinued Operations

There has been no change since the 2023 Annual Statement.

5. Investments

A. Mortgage Loans, including Mezzanine Real Estate Loans - The Company did not hold investments in mortgage loans at March 31, 2024.

B. Debt Restructuring - The Company has no investments in restructured debt in which the Company is a creditor at March 31, 2024.

C. Reverse Mortgages - The Company did not hold reverse mortgages as investments at March 31, 2024.

D. Loan-Backed and Structured Securities

1. Prepayment assumptions for loan backed and structured securities were obtained from publicly available sources and internal models.

2. The Company had no loan-backed or structured securities with current year other-than-temporary impairments ("OTTI") due to either the intent to sell the securities or the inability or lack of intent to retain for the time sufficient to recover the amortized cost basis.

3. The following table summarizes OTTI recorded for loan-backed securities which the Company still owns at the end of the respective quarters recorded, based on the fact that the present value of projected cash flows expected to be collected was less than the amortized cost of the securities:

STATEMENT AS MARCH 31, 2024 OF ASSURED GUARANTY CORP.

CUSIP	Amortized Cost Before Other-Than-Temporary Impairment	Present Value of Projected Cash Flows	Other-Than-Temporary Impairment	Amortized Cost After Other-Than-Temporary Impairment	Fair Value @ Time of OTTI	Date of Financial Statement Where Reported
000292-AB-8	\$ 15,444	\$ 14,705	\$ 739	\$ 14,705	\$ 11,185	03/31/2024

			\$ 10,869			

4. The following summarizes gross unrealized investment losses on loan-backed and structured securities for which OTTI has not been recognized as a realized loss by the length of time that securities have continuously been in an unrealized loss position.

a. The aggregate amount of unrealized losses:

	<u>Less than 12 months</u>	<u>12 Months or More</u>
Residential mortgage-backed securities	\$ (72,999)	\$ (1,353,873)
Commercial mortgage-backed securities	(8)	(1,072,487)
Other loan backed & structured securities	(88,229)	(437,007)
Total	1. \$ (161,236)	2. \$ (2,863,367)

b. The aggregate related fair value of securities with unrealized losses:

	<u>Less than 12 months</u>	<u>12 Months or More</u>
Residential mortgage-backed securities	\$ 3,911,859	\$ 9,894,086
Commercial mortgage-backed securities	2,349	24,751,715
Other loan backed & structured securities	4,257,968	30,521,601
Total	1. \$ 8,172,176	2. \$ 65,167,402

5. All loan-backed and structured securities in an unrealized loss position were reviewed to determine whether an OTTI should be recognized. For those securities in an unrealized loss position at March 31, 2024, the Company has not made a decision to sell any such securities and does not intend to sell such securities. The Company has evaluated its cash flow requirements and believes that its liquidity is adequate and it will not be required to sell these securities before recovery of their cost basis. The Company has determined that the unrealized losses recorded were not related to credit quality.

- E. Dollar Repurchase Agreements and/or Securities Lending Transactions - The Company did not enter into dollar repurchase agreements or securities lending transactions at March 31, 2024.
- F. Repurchase Agreements Transactions Accounted for as Secured Borrowing - The Company did not enter into repurchase agreements accounted for as secured borrowings at March 31, 2024.
- G. Reverse Repurchase Agreements Transactions Accounted for as Secured Borrowing - The Company did not enter into reverse repurchase agreements accounted for as secured borrowings at March 31, 2024.
- H. Repurchase Agreements Transactions Accounted for as a Sale - The Company did not enter into repurchase agreements accounted for as a sale at March 31, 2024.
- I. Reverse Repurchase Agreements Transactions Accounted for as a Sale - The Company did not enter into reverse repurchase agreements accounted for as a sale at March 31, 2024.
- J. Real Estate - At March 31, 2024, the Company has one investment in real estate held for sale, which is an office building at 400 Main Street in Stockton, California.

- P. Short Sales - The Company did not sell any securities short in the first three months of 2024.
- Q. Prepayment Penalty and Acceleration Fees - The Company had no securities with a call price above 100, which generated no prepayment penalties and acceleration fee income.
- R. Cash Pool - The Company did not participate in any cash pools at March 31, 2024.

6. Joint Ventures, Partnerships and Limited Liability Companies

As of March 31, 2024, the book value of the Company's investments in limited partnerships and limited liability companies was \$343.8 million. There were realized gains of \$408.1 thousand and unrealized gains of \$11.1 million recognized in surplus during the three months ended March 31, 2024.

7. Investment Income

- A. Accrued Investment Income
Accrued investment income was \$21,330,790 and \$18,579,626 as of March 31, 2024, and December 31, 2023, respectively. There are no amounts due and accrued over 90 days included in these balances.
- B. The Company does not admit investment income due and accrued if amounts are over 90 days past due.

8. Derivative Instruments

There has been no change since the 2023 Annual Statement.

9. Income Taxes

There has been no significant change since the 2023 Annual Statement.

10. Information Concerning Parent, Subsidiaries and Affiliates

A, C through O. There has been no significant change since the 2023 Annual Statement.

- B. Transactions with Affiliates
The Company engaged in the following non-insurance transactions (generally representing greater than 0.5% of admitted assets) with affiliates:
 - 1. The Company paid dividends of \$35.1 million in the first three months of 2024 to Assured Guaranty US Holdings Inc. (the "Parent" or "AGUS").

11. Debt

There has been no change since the 2023 Annual Statement.

12. Retirement Plans, Deferred Compensation, Post-employment Benefits and Compensated Absences and Other Post-retirement Benefit Plans

There has been no significant change since the 2023 Annual Statement.

13. Capital and Surplus, Dividend Restrictions and Quasi-Reorganizations

A through C, F through I, K through M. There has been no significant change since the 2023 Annual Statement.

- D. The Company paid dividends to AGUS of \$35.1 million on March 25, 2024.
- E. Under Maryland's insurance law, AGC may, with prior notice to the Maryland Insurance Commissioner, pay an ordinary dividend that, together with all dividends paid in the prior 12 months, does not exceed the lesser of 10% of its policyholders' surplus (as of the prior December 31) or 100% of its adjusted net investment income during that period. The maximum amount available during 2024 for AGC to distribute as ordinary dividends is approximately \$117 million. Of such \$117 million, \$35.1 million was distributed by AGC to AGUS in the first three months of 2024, and approximately \$24 million is available for distribution in the second quarter of 2024.
- J. The portion of unassigned funds (surplus) represented by cumulative unrealized gains is \$61,956,665.

STATEMENT AS MARCH 31, 2024 OF ASSURED GUARANTY CORP.

Legal Proceedings

Lawsuits arise in the ordinary course of the Company's business. It is the opinion of the Company's management, based upon the information available, that the expected outcome of litigation against the Company, individually or in the aggregate, will not have a material adverse effect on the Company's financial position, although an adverse resolution of litigation against the Company in a fiscal quarter or year could have a material adverse effect on the Company's results of operations or liquidity in that particular quarter or year.

In addition, in the ordinary course of its business, the Company is involved in litigation with third parties to recover insurance losses paid in prior periods or prevent or reduce losses in the future. For example, the Company is involved in a number of legal actions in the United States District Court of the District of Puerto Rico ("Federal District Court of Puerto Rico") to enforce or defend its rights with respect to the obligations it insures of Puerto Rico and various of its related authorities and public corporations. The impact, if any, of these and other proceedings on the amount of recoveries the Company receives and losses it pays in the future is uncertain, and the impact of any one or more of these proceedings during any quarter or year could be material to the Company's results of operations in that particular quarter or year. In first quarter 2023, the Company reduced its previously recorded accrual of \$20 million (\$17 million net of ceded reinsurance) to zero in connection with developments in litigation.

The Company also receives subpoenas and interrogatories from regulators from time to time.

Litigation

On November 28, 2011, Lehman Brothers International (Europe) (in administration) ("LBIE") sued AG Financial Products Inc. ("AGFP"), an affiliate of AGC, which, in the past, had provided credit protection to counterparties under CDS. AGC acts as the credit support provider of AGFP under these CDS. LBIE's complaint, which was filed in the Supreme Court of the State of New York (the "Court"), asserted a claim for breach of the implied covenant of good faith and fair dealing based on AGFP's termination in December 2008 of nine credit derivative transactions between LBIE and AGFP and asserted claims for breach of contract and breach of the implied covenant of good faith and fair dealing based on AGFP's termination in July 2009 of 28 other credit derivative transactions between LBIE and AGFP and AGFP's calculation of the termination payment in connection with those 28 other credit derivative transactions. Following defaults by LBIE, AGFP had terminated the transactions in question in compliance with the agreement between AGFP and LBIE, and properly calculated that LBIE owes AGFP approximately \$4 million for the claims which were dismissed (as described below) and approximately \$21 million in connection with the termination of the other credit derivative transactions, whereas LBIE asserted in the complaint that AGFP owes LBIE a termination payment of approximately \$1.4 billion. On March 15, 2013, the Court granted AGFP's motion to dismiss in respect of the count relating to the nine credit derivative transactions and narrowed LBIE's claim with respect to the 28 other credit derivative transactions. Following a bench trial, on March 8, 2023, the Court rendered its decision and found in favor of AGFP. On June 30, 2023, the clerk entered judgment in favor of AGFP in the amount of approximately \$54 million plus post-judgment simple interest at an annual rate of 8%. On July 1, 2023, AGFP moved the Court to award it approximately \$58 million for attorneys' fees and expenses AGFP incurred through March 2023. The parties reached a confidential settlement with respect to this motion for attorneys' fees, and AGFP withdrew the motion without prejudice on October 30, 2023. On September 22, 2023, LBIE appealed the Court's post-trial decision to the New York Appellate Division's First Judicial Department ("Appellate Division"). On March 14, 2024, the Appellate Division affirmed the Court's judgment. On April 15, 2024, LBIE moved for leave to reargue its appeal before the Appellate Division or, alternatively, to appeal to the New York Court of Appeals. The Company did not accrue in its financial statements for the judgment it was awarded or the attorneys' fees it sought.

Puerto Rico Litigation

Currently, there are numerous legal actions relating to the default by the Commonwealth of Puerto Rico ("Puerto Rico" or the "Commonwealth") and certain of its instrumentalities on debt service payments, and related matters, and the Company is a party to a number of them. The Company has taken legal action, and may take additional legal action in the future, to enforce its rights with respect to the remaining Puerto Rico obligations it still insures. In addition, the Commonwealth, the financial oversight and management board ("FOMB") and others have taken legal action naming the Company as party.

Certain legal actions involving the Company and relating to the Commonwealth, Puerto Rico Convention Center District Authority and the Puerto Rico Infrastructure Financing Authority, or Puerto Rico Highways and Transportation Authority ("PRHTA"), were resolved on March 15, 2022, and all remaining legal actions involving the Company and relating to PRHTA were resolved on December 6, 2022, in connection with the consummation of the 2022 Puerto Rico Resolutions (see Note 21.F.4). There remains one active proceeding related to the Puerto Rico Electric Power Authority ("PREPA"), while there are a number of unresolved proceedings involving the Company and relating to the default by the Commonwealth or its instrumentalities that remain stayed pending the Federal District Court of Puerto Rico's determination on the PREPA plan of adjustment.

The remaining active proceeding was initiated by the FOMB in the Federal District Court of Puerto Rico on July 1, 2019, against U.S. Bank National Association, as trustee for PREPA's bonds, objecting to and challenging the validity, enforceability, and extent of prepetition security interests securing those bonds and seeking other relief. On September 30, 2022, the FOMB filed an amended complaint against the trustee (i) objecting to and challenging the validity, enforceability, and extent of prepetition security interests securing PREPA's bonds and (ii) arguing that PREPA bondholders' recourse was limited to certain deposit accounts held by the trustee. On October 7, 2022, the court approved a stipulation permitting Assured Guaranty Municipal Corp. ("AGM") and AGC to intervene as defendants. Summary judgment motions were filed by plaintiffs and defendants on October 24, 2022. On March 22, 2023, the Federal District Court of Puerto Rico granted in part and denied in part each party's cross-motions for summary judgment. The Federal District Court of Puerto Rico found that the PREPA bondholders had perfected liens only in revenues that had been deposited in the sinking fund established under the PREPA trust agreement and related funds over which the bond trustee had control. The Federal District Court of Puerto Rico also held that the PREPA bondholders do have recourse under the trust agreement in the form of an unsecured net revenue claim. In a June 26, 2023, opinion, the court estimated the PREPA bondholders' allowed unsecured net revenue claim to be \$2.4 billion, which the court calculated by largely adopting the conclusions in the FOMB's expert report. On May 3, 2023, the court denied PREPA bondholders' request to certify their interlocutory appeal of the finding that the PREPA bondholders had perfected liens only in revenues that had been deposited in the sinking fund established under the PREPA trust agreement and related funds over which the bond trustee had control. On May 15, 2023, the FOMB filed its

STATEMENT AS MARCH 31, 2024 OF ASSURED GUARANTY CORP.

motion to dismiss the trustee's and bondholders' counterclaims, which was granted by the court on November 28, 2023. AGM and AGC filed a notice of appeal on November 30, 2023. On January 29, 2024, the First Circuit heard oral arguments for the Company's appeals.

The unresolved proceedings initiated in the Federal District Court of Puerto Rico involving the Company and relating to the default by the Commonwealth or its instrumentalities that remain stayed pending the Federal District Court of Puerto Rico's determination on the PREPA plan of adjustment are:

- AGM and AGC motion to compel the FOMB to certify the PREPA restructuring support agreement executed in May 2019 ("PREPA RSA") for implementation under Title VI of the Puerto Rico Oversight, Management, and Economic Stability Act ("PROMESA").
- AGM and AGC motion to dismiss PREPA's Title III Bankruptcy proceeding or, in the alternative, to lift the PROMESA automatic stay to allow for the appointment of a receiver.
- Adversary complaint by certain fuel line lenders of PREPA against AGM and AGC, among other parties, including various PREPA bondholders and bond insurers, seeking, among other things, declarations that there is no valid lien securing the PREPA bonds unless and until such lenders are paid in full, as well as orders subordinating the PREPA bondholders' lien and claims to such lenders' claims, and declaring the PREPA RSA null and void.
- AGM and AGC motion to intervene in lawsuit by the retirement system for PREPA employees against, among others, the FOMB, PREPA, the Commonwealth, and the trustee for PREPA bondholders seeking, among other things, declarations that there is no valid lien securing the PREPA bonds other than on amounts in the sinking funds, and order subordinating the PREPA bondholders' lien and claim to the PREPA employees' claims.

For a discussion of the Company's exposure to Puerto Rico related to the litigation described above, please see Note 21, Other Items - Underwriting Exposure.

15. Leases

There have been no material changes since the 2023 Annual Statement.

16. Information About Financial Instruments With Off-Balance Sheet Risk and Financial Instruments with Concentrations of Credit Risk

The Company provides insurance for public finance and structured finance obligations. Total net principal and interest exposure at March 31, 2024 was \$47.1 billion (\$41.5 billion for public finance and \$5.6 billion for structured finance exposures).

17. Sale, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities

- A. The Company has not sold or transferred any receivables during the first three months of 2024.
- B. The Company has not transferred or serviced any financial assets during the first three months of 2024.
- C. The Company did not engage in any wash sale transactions during the first three months of 2024.

18. Gain or Loss to the Reporting Entity from Uninsured Plans and the Uninsured Portion of Partially Insured Plans

There has been no change since the 2023 Annual Statement.

19. Direct Premium Written/Produced by Managing General Agents/Third Party Administrators

There has been no change since the 2023 Annual Statement.

20. Fair Value

- A. Inputs Used for Assets and Liabilities Measured and Reported at Fair Value
 1. Items Measured and Reported at Fair Value by Levels 1, 2 and 3

The categorization within the fair value hierarchy is determined based on whether the inputs to valuation techniques used to measure fair value are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect Company estimates of market assumptions. The fair value hierarchy prioritizes model inputs into three broad levels as follows, with Level 1 being the highest and Level 3 the lowest. An asset's or liability's categorization is based on the lowest level of significant input to its valuation.

- Level 1 – Quoted prices for identical instruments in active markets. The Company generally defines an active market as a market in which trading occurs at significant volumes. Active markets generally are more liquid and have a lower bid-ask spread than an inactive market.
- Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and observable inputs other than quoted prices, such as interest rates or yield curves and other inputs derived from or corroborated by observable market inputs.
- Level 3 – Model derived valuations in which one or more significant inputs or significant value drivers are unobservable. Financial instruments are considered Level 3 when their values are determined using pricing models, discounted cash flow methodologies or similar techniques and at least one significant model assumption or input is unobservable. Level 3 financial instruments also include those for which the determination of fair value requires significant management judgment or estimation.

The following fair value hierarchy table presents information about the Company's asset measured at fair value as of March 31, 2024.

Bonds

Bonds with an NAIC designation of 1 and 2 are carried at amortized cost while bonds with an NAIC designation of 3 through 6 are carried at the lower of cost or fair value.

The fair value of bonds in the investment portfolio is generally based on prices received from third-party pricing services or alternative pricing sources with reasonable levels of price transparency. The pricing services prepare estimates of fair value using their pricing models, which take into account: benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, reference data, industry and economic events, and sector groupings. Additional valuation factors that can be taken into account are nominal spreads and liquidity adjustments. The pricing services evaluate each asset class based on relevant market and credit information, perceived market movements, and sector news.

Benchmark yields have in many cases taken priority over reported trades for securities that trade less frequently or those that are distressed trades, and therefore may not be indicative of the market. The extent of the use of each input is dependent on the asset class and the market conditions. The valuation of fixed-maturity investments is more subjective when markets are less liquid due to the lack of market based inputs.

Stocks

The Company's stocks are those of a third-party company and are accounted for at fair value.

Cash, Cash Equivalents and Short-Term Investments

Cash equivalents and short-term investments, with the exception of money market mutual funds, are stated at amortized cost and have maturities within one year of purchase date. Money market mutual funds are accounted for at fair value, which approximates amortized cost.

Other Invested Assets

The carrying amounts reported in the statement of admitted assets, liabilities and surplus for these instruments are at amortized cost. Investments in limited liability company interests are carried on the equity basis, to the extent admissible.

2. Rollforward of Level 3 Items

For fair value measurements categorized within Level 3 of the fair value hierarchy, the following table is a reconciliation from the opening balance to the closing balances during the quarter:

Description:	Beginning Balance at January 1, 2024	Transfers Into Level 3	Transfers Out of Level 3	Total Gains & Losses incl in Net Income	Total Gains & Losses incl in Surplus	Purchase	Issuance	Sales	Settlement	Ending Balance at March 31, 2024

TOTAL	\$ 79,550	\$ —	\$ —	\$ (5,550)	\$ —	\$ —	\$ —	\$ —	\$ —	\$ 74,000

3. Policy on Transfers Into and Out of Level 3

Transfers in and out of Level 3 are recognized at the end of the quarter when the Company evaluates whether securities with unobservable inputs need to be carried at fair value.

- During the quarter ended March 31, 2024, there were no transfers into or out of Level 3.

4. Inputs and Techniques Used for Level 3 Fair Values

All Level 3 securities were priced with the assistance of independent third parties. The pricing is based on a discounted cash flow approach using the third party's proprietary pricing models. The models use inputs such as projected prepayment speeds; severity assumptions; recovery lag assumptions; estimated default rates (determined on the basis of an analysis of collateral attributes, historical collateral performance, borrower profiles and other features relevant to the evaluation of collateral credit quality); home price appreciation/depreciation rates based on macroeconomic forecasts and recent trading activity. The yield used to discount the projected cash flows is determined by reviewing various attributes of the security including collateral type, weighted average life, sensitivity to losses, vintage, and convexity, in conjunction with market data on comparable securities. Significant changes to any of these inputs could have materially changed the expected timing of cash flows within these securities which is a significant factor in determining the fair value of the securities.

5. Derivative Fair Values

The Company does not own derivatives at March 31, 2024.

B. Other Fair Value Disclosures

The fair value of the Company's financial guaranty insurance contracts accounted for as insurance was approximately \$603.3 million at March 31, 2024, and was based on management's estimate of what a similarly rated financial guaranty insurance company would demand to acquire the Company's in-force book of financial guaranty insurance business. It is based on a variety of factors that may include pricing assumptions management has observed for portfolio transfers and acquisitions that have occurred in the financial guaranty market and also includes adjustments to the carrying value of unearned premium reserve for stressed losses, ceding commissions and return on capital. The Company classified the fair value of financial guaranty insurance contracts as Level 3.

21. Other Items

B, C, D, E, G, H. There has been no change since the 2023 Annual Statement.

A. Unusual or Infrequent Items

Inflation

By some key measures consumer price inflation in the U.S. and the U.K. was higher in recent years than it has been in decades, and interest rates generally increased. Consumer price inflation in the U.K. impacts the Company directly by increasing exposure for certain index-linked U.K. debt with par that accretes with increasing inflation, and also increasing projected future installment premiums on the portion of such exposure that pays at least some of the premium on an installment basis over the term of the exposure. Consumer price inflation may also impact the Company indirectly to the extent it makes it more difficult for obligors to make their debt payments, and may be accompanied by higher interest rates.

Higher interest rates impact the Company in numerous other ways. For example, higher interest rates are often accompanied by wider credit spreads, which may make the Company's credit enhancement products more attractive in the market and increase the level of premiums it can charge for that product. Despite the recent increases in interest rates since 2022, the pace of credit spread widening was more modest and market penetration of municipal bond insurance in the U.S. public finance market remained relatively flat compared to 2021 when interest rates were lower. Over time, higher interest rates also increase the amount the Company can earn on its largely fixed-maturity investment portfolio. However, higher interest rates may, in turn, reduce the fair value of its largely fixed-rate fixed-maturity investment portfolio, dampen municipal bond issuance and negatively impact the finances of some insured obligors.

Russia's Invasion of Ukraine

Russia's invasion of Ukraine has led to the imposition of economic sanctions by many western countries against Russia and certain Russian individuals, dislocation in global energy markets, massive refugee movements, and payment default by certain Russian credits. The economic sanctions imposed by western governments, along with decisions by private companies regarding their presence in Russia, continue to reduce western economic ties to Russia and to reshape global economic and political ties more generally, and the Company cannot predict all of the potential effects of the conflict on the world or on the Company.

The Company's surveillance and treasury functions have reviewed the Company's insurance and investment portfolios, respectively, and have identified no material direct exposure to Ukraine or Russia. In fact, the Company's direct insurance exposure to eastern Europe generally is limited to approximately \$4 million in net par outstanding as of March 31, 2024, comprising \$2 million net par exposure to the sovereign debt of Poland and \$2 million net par exposure to a toll road in Hungary. The Company rates all such exposure investment grade.

Middle East Conflict

In light of recent events in the Middle East, the Company's surveillance and treasury functions have reviewed the Company's insurance and investment portfolios, respectively, for exposures to the Middle East. After review, the Company's surveillance and treasury functions have identified no material direct exposure to such area. The Company's insurance exposure to the Middle East is generally limited to approximately \$44 million in net par outstanding as of March 31, 2024, comprised of funded commitments to subscription finance facilities; however, such exposure may increase to a total of approximately \$72 million to the extent all unfunded commitments under the facilities are ultimately funded. The Company rates all such insurance exposure investment grade.

STATEMENT AS MARCH 31, 2024 OF ASSURED GUARANTY CORP.

F. Subprime Mortgage-Related Risk Exposure (1) through (3)

The Company purchased securities with subprime mortgage related exposures that it has insured, and for which it had loss reserves, in order to mitigate the economic effect of insured losses (“loss mitigation securities”). These securities were purchased at a discount and are accounted for excluding the effects of the Company's insurance on the securities. As of March 31, 2024, the majority of the investment portfolio is managed by three outside managers. The Company has established detailed guidelines regarding credit quality, exposure to a particular sector and exposure to a particular obligor within a sector. The externally managed portfolio must maintain a minimum average rating of A+ by S&P Global Ratings, a division of Standard & Poor's Financial Services LLC, or A1 by Moody's Ratings.

Exposure to Puerto Rico

The Company had insured exposure to various authorities and public corporations of Puerto Rico aggregating \$206 million net par outstanding as of March 31, 2024, and \$242 million as of December 31, 2023. All of the Company's insured exposure to Puerto Rico is rated below investment grade ("BIG"). As of March 31, 2024, the only remaining outstanding insured Puerto Rico exposure subject to a payment default was PREPA. As of March 31, 2024, the Company had approximately \$7 million of remaining non-defaulting Puerto Rico exposures related primarily to the Municipal Finance Agency, which are secured by a lien on local tax revenues and remain current on debt service payments.

PREPA

As of March 31, 2024, the Company had approximately \$7 million of remaining non-defaulting Puerto Rico exposures related primarily to the Municipal Finance Agency, which are secured by a lien on local tax revenues and remain current on debt service payments.

The default of PREPA's obligations has been the subject of restructuring negotiations, mediation and litigation since 2014. On April 8, 2022, Judge Laura Taylor Swain of the Federal District Court of Puerto Rico issued an order appointing as members of a PREPA mediation team U.S. Bankruptcy Judges Shelley Chapman (lead mediator), Robert Drain and Brendan Shannon. Judge Swain also entered a separate order establishing the terms and conditions of mediation, including that the mediation would terminate on June 1, 2022. Judge Swain has since extended the term of such mediation several times, most recently on May 1, 2024, extending the term to July 31, 2024. The FOMB, which was established under PROMESA filed an initial plan of adjustment and disclosure statement for PREPA with the Federal District Court of Puerto Rico on December 16, 2022.

On March 22, 2023, the Federal District Court of Puerto Rico held that the PREPA bondholders had perfected liens only in revenues that had been deposited in the sinking fund established under the PREPA trust agreement and related funds over which the bond trustee had control but did not have a lien on future revenues until deposited in those funds. The Federal District Court of Puerto Rico also held, however, that PREPA bondholders do have recourse under the PREPA trust agreement in the form of an unsecured net revenue claim. At that time, the Federal District Court of Puerto Rico declined to value the unsecured net revenue claim or the method for its determination. The ultimate value of the claim, according to the Federal District Court of Puerto Rico should be determined through a claim estimation proceeding.

On June 6-8, 2023, the Federal District Court of Puerto Rico held a claim estimation proceeding and, on June 26, 2023, issued an opinion and order estimating the unsecured net revenue claim to be \$2.4 billion as of July 3, 2017. This estimate included a determination that PREPA's discounted cash flows, using the FOMB's base-case incremental net revenues over a 100-year collection period and a discount rate of 7%, would be \$3.0 billion, and should be reduced by an additional 20% for collection risk. PREPA bondholders had sought an unsecured net revenue claim of approximately \$8.5 billion.

On November 17, 2023, the Federal District Court of Puerto Rico approved the supplemental disclosure statement (“Supplemental Disclosure Statement”) supporting the PREPA plan of adjustment filed by the FOMB (as amended or modified from time to time). On February 16, 2024, FOMB filed with the Federal District Court of Puerto Rico its most recent plan of adjustment for PREPA, the Modified Fourth Amended Title III Plan of Adjustment (“FOMB PREPA Plan”). The Supplemental Disclosure Statement and the FOMB PREPA Plan are based on the last revised PREPA fiscal plan certified by the FOMB on June 23, 2023 (“2023 PREPA Fiscal Plan”).

On November 28, 2023, the Federal District Court of Puerto Rico finally adjudicated all claims and counterclaims in the PREPA lien challenge adversary proceeding. On November 30, 2023, the Company filed a notice of appeal with the United States Court of Appeals for the First Circuit (“First Circuit”) for portions of the March 22, 2023 decision, including the lien scope ruling and the need for a claim estimation proceeding, as well as the June 26, 2023 claim estimation ruling. On January 29, 2024, the First Circuit heard oral arguments for the Company's appeals.

The FOMB PREPA Plan would split bondholders into two groups: one that would settle litigation regarding whether creditor repayment is limited to existing accounts, and another group that would continue litigating whether bondholders are secured by PREPA's current and future revenue collections. The FOMB PREPA Plan also would further split settling bondholders into two sub-groups: one consisting of certain original settling bondholders that would receive an enhanced recovery (compared to non-settling bondholders) plus other supporting creditor payments, while the second settling sub-group would receive only the enhanced recovery. The FOMB asserts that, other than for pension claims, PREPA's debt

STATEMENT AS MARCH 31, 2024 OF ASSURED GUARANTY CORP.

capacity is \$2.5 billion, of which approximately \$1.4 billion is allocated to settling creditors. The remaining \$1.1 billion is allocated to (i) non-settling bondholders, and (ii) general unsecured creditors. The most recent revised FOMB PREPA Plan provides for reduced payments to bondholders since lower projected PREPA revenues are included in the 2023 PREPA Fiscal Plan than had been previously anticipated. The FOMB PREPA Plan estimates that non-settling bondholders will receive a recovery of 12.5% of their allowed unsecured net revenue claim. The Company is opposed to the FOMB PREPA Plan and has joined with a group of non-settling bondholders that continue to litigate the lien scope and claim estimation rulings.

The confirmation hearing for the FOMB PREPA Plan occurred in March 2024. At the end of the hearing, Judge Swain stated that she was taking the confirmation of the FOMB PREPA Plan under advisement and gave no indication of timing for an opinion or order. On April 29, 2024, the Company and other non-settling bondholders filed a motion to reopen the record of the confirmation hearing for the FOMB PREPA Plan to include newly discovered updated forecasts of electricity usage.

Resolved Puerto Rico Exposures

In 2022, as a result of the resolution of the Company's exposure to insured Puerto Rico credits experiencing payment default other than PREPA ("2022 Puerto Rico Resolutions"), the Company received cash, new general obligation bonds ("New GO Bonds"), new bonds backed by toll revenues ("Toll Bonds", and together with New GO Bonds, "New Recovery Bonds") and contingent value instruments ("CVIs"). The CVIs are intended to provide creditors with additional recoveries tied to the outperformance of the Puerto Rico 5.5% Sales and Use Tax receipts against May 2020 certified fiscal plan projections, subject to annual and lifetime caps. Cash, New Recovery Bonds and CVIs received pursuant to the 2022 Puerto Rico Resolutions are collectively referred to as Plan Consideration. As of March 31, 2024, all but \$190 million in CVIs (at fair value) had been sold or redeemed.

As of March 31, 2024, the Company had \$132 million of insured net par outstanding of legacy Puerto Rico Highways and Transportation Authority ("PRHTA") bonds. This net par outstanding primarily represents the Company's exposure in respect of legacy insured PRHTA bondholders who elected to receive custody receipts that represent an interest in the legacy insurance policy plus Plan Consideration, as described below. The remaining amounts owed for insured PRHTA bonds are payable in full by the Company under its financial guaranty policies and are no longer dependent on the credit of PRHTA.

Certain insured bondholders elected to receive custody receipts representing an interest in custodial trusts that hold the legacy insurance policy plus Plan Consideration. The Company's insurance policy continues to guarantee principal and interest coming due on the legacy insured bonds in accordance with the terms of such insurance policy on the originally scheduled legacy bond interest and principal payment dates.

Non-Defaulting Puerto Rico Exposures

As of March 31, 2024, and December 31, 2023, the Company had \$6 million of remaining non-defaulting Puerto Rico net par outstanding related primarily to the Municipal Finance Agency ("MFA"). The MFA exposures are secured by a lien on local tax revenues and remain current on debt service payments.

U.S. Public Finance Loss and LAE

The Company had loss and LAE reserves (recoverables) across its troubled U.S. public finance exposures as of March 31, 2024, including those mentioned above, of \$0.8 million compared to \$(16.8) million as of December 31, 2023. The Company's loss and LAE reserves incorporate management's probability weighted estimates of possible scenarios. Each quarter, the Company may revise its scenarios and update its assumptions, including the probability weightings of its scenarios based on public information as well as nonpublic information obtained through its surveillance and loss mitigation activities. Management assesses the possible implications of such information on each insured obligation, considering the unique characteristics of each transaction.

The increase in reserves was attributable to loss and LAE recoveries of \$31.3 million offset by loss and LAE benefits of \$13.7 million (both of which are primarily due to Puerto Rico exposures).

U.S. RMBS Loss Projections

The Company projects losses on its insured U.S. RMBS on a transaction-by-transaction basis by projecting the performance of the underlying pool of mortgages over time and then applying the structural features (e.g., payment priorities and tranching) of the RMBS and any expected representation and warranty ("R&W") recoveries/payables to the projected performance of the collateral over time.

Each period the Company reviews the assumptions it uses to make RMBS loss projections with consideration of updates on the performance of its insured transactions (including early-stage delinquencies, late-stage delinquencies and loss severity) as well as the residential property market and economy in general. To the extent it observes changes, it makes a judgment as to whether those changes are normal fluctuations or part of a more prolonged trend. In the first three months of 2024, there was a loss and LAE incurred of \$2 million for first lien U.S. RMBS and a loss and LAE incurred of \$1 million for second lien U.S. RMBS. The assumptions that the Company uses to project RMBS losses are shown in the sections below.

First Lien U.S. RMBS Loss Projections: Alt-A, Prime, Option ARM and Subprime

The majority of projected losses in first lien U.S. RMBS transactions are expected to come from non-performing mortgage loans (those that are or have recently been two or more payments behind, have been modified, are in foreclosure, or have been foreclosed upon). Changes in the amount of non-performing loans from the amount projected in the previous period are one of the primary drivers of loss projections in this portfolio. Collateral losses are projected to be offset by recoveries on deferred principal balance. In order to project the number of defaults arising from these delinquent and foreclosed loans, the Company applies a liquidation rate assumption to loans in each of various non-performing categories. The Company arrived at its liquidation rates based on data purchased from a third-party provider and assumptions about how delays in the foreclosure process and loan modifications may ultimately affect the rate at which loans are liquidated. Each quarter the

STATEMENT AS MARCH 31, 2024 OF ASSURED GUARANTY CORP.

Company reviews recent data and (if necessary) adjusts its liquidation rates based on its observations. The following table shows liquidation assumptions for various non-performing and re-performing categories.

First Lien U.S. RMBS Liquidation Rates

	As of March 31, 2024	As of December 31, 2023
	Range (1)	Range (1)

60 - 89 Days Delinquent	40% - 45%	40% - 45%
90+ Days Delinquent	45% - 60%	45% - 60%
Bankruptcy	40% - 50%	40% - 50%
Foreclosure	55% - 65%	55% - 65%
Real Estate Owned	100%	100%

(1) The ranges represent variation in calculated liquidation rates across RMBS sectors.

While the Company uses the liquidation rates above to project defaults of non-performing loans (including current loans that were recently modified or delinquent), it projects defaults on presently current loans by applying a conditional default rate ("CDR") curve. The start of that CDR curve is based on the defaults the Company projects will emerge from currently nonperforming, recently nonperforming and modified loans. The total amount of expected defaults from the non-performing loans is translated into a constant CDR (i.e., the "CDR plateau"), which, if applied for each of the next 36 months, results in the projection of the defaults that are expected to emerge from the various delinquency categories. The CDR thus calculated individually on the delinquent collateral pool for each RMBS is then used as the starting point for the CDR curve used to project defaults of the presently performing loans.

In the most heavily weighted scenario (the "base scenario"), after the 36-month CDR plateau period, each transaction's CDR is projected to improve over 12 months to a final CDR of 5% of the CDR plateau. In the base scenario, the Company assumes the final CDR will be reached one year after the 36-month CDR plateau period. Under the Company's methodology, defaults projected to occur in the first 36 months represent defaults that can be attributed to loans that were recently modified or delinquent, or that are currently delinquent or in foreclosure, while the defaults projected to occur using the projected CDR trend after the first 36-month period represent defaults attributable to borrowers that are currently performing or are projected to re-perform.

Another important driver of loss projections is loss severity, which is the amount of loss the transaction incurs on a loan after the application of net proceeds from the disposal of the underlying property. The Company assumes in the base scenario that recent (still historically elevated) loss severities will improve after loans with accumulated delinquencies and foreclosure cost are liquidated. The Company is assuming in the base scenario that recent severity levels generally will continue for another 18 months. The Company determines its initial loss severity based on recent experience. Each quarter the Company reviews available data and (if necessary) adjusts its severities based on its observations. The Company then assumes that loss severities begin returning to levels consistent with underwriting assumptions beginning after the initial 18-month period, declining to 40% in the base scenario over 2.5 years.

The Company incorporates a recovery assumption into its loss modeling to reflect observed trends in recoveries of deferred principal balances of modified first lien loans. For transactions where the Company has detailed loan information, the Company assumes, in the base scenario, that 30% of the deferred loan balances will eventually be recovered upon sale of the collateral or refinancing of the loans.

The following table shows the range as well as the average, weighted by outstanding net insured par, for key assumptions used in the calculation of loss reserves for individual transactions for vintage 2004 - 2008 first lien U.S. RMBS.

Key Assumptions in Base Scenario Loss Reserve Estimates First Lien U.S. RMBS

	As of March 31, 2024		As of December 31, 2023	
	Range	Weighted Average	Range	Weighted Average
Plateau CDR	0.0% - 8.8%	4.0%	0.0% - 9.3%	3.6%
Final CDR	0.0% - 0.4%	0.2%	0.0% - 0.5%	0.2%
Initial loss severity	50%		50%	

The rate at which the principal amount of loans is voluntarily prepaid may impact both the amount of losses projected (since that amount is a function of the CDR, the loss severity and the loan balance over time) as well as the amount of excess spread (the amount by which the interest paid by the borrowers on the underlying loan exceeds the amount of interest owed on the insured obligations). The assumption for the voluntary conditional prepayment rate ("CPR") follows a pattern similar to that of the CDR. The current level of voluntary prepayments is assumed to continue for the plateau period before gradually increasing over 12 months to the final CPR, which is assumed to be 15% in the base scenario. For transactions where the initial CPR is higher than the final CPR, the initial CPR is held constant, and the final CPR is not used. These CPR assumptions are the same as those the Company used for December 31, 2023.

In estimating loss reserves, the Company modeled and probability weighted sensitivities for first lien U.S. RMBS transactions by varying its assumptions of how fast a recovery is expected to occur. One of the variables used to model sensitivities was how quickly the CDR returned to its modeled equilibrium, which was defined as 5% of the CDR plateau. The Company also stressed CPR and the speed of recovery of loss severity rates. The Company probability weighted a total of five scenarios as of March 31, 2024, and December 31, 2023.

STATEMENT AS MARCH 31, 2024 OF ASSURED GUARANTY CORP.

Certain transactions benefit from excess spread when they are supported by large portions of fixed rate assets (either originally fixed or modified to be fixed) but have insured floating rate debt linked to the Secured Overnight Finance Rate ("SOFR"). An increase in projected SOFR decreases excess spread, while lower SOFR projections result in higher excess spread.

Total loss and LAE reserves on all first lien U.S. RMBS were \$86 million and \$84 million as of March 31, 2024, and December 31, 2023, respectively. The increase in reserves was driven by weaker performance in certain transactions and higher SOFR, resulting in lower excess spread.

The Company used a similar approach to establish its scenarios as of March 31, 2024, as it used as of December 31, 2023, increasing and decreasing the periods and levels of stress from those used in the base scenario. In the Company's most stressful scenario where 10% of deferred principal balances are assumed to be recovered, loss severities were assumed to rise and then recover over nine years and the initial ramp-down of the CDR was assumed to occur over 16 months, expected loss to be paid would increase from current projections by approximately \$9 million for all first lien U.S. RMBS transactions. In the Company's least stressful scenario where 50% of deferred principal balances are assumed to be recovered, the CDR plateau was six months shorter (30 months, effectively assuming that liquidation rates would improve) and the CDR recovery was more pronounced (including an initial ramp-down of the CDR over eight months), expected loss to be paid would decrease from current projections by approximately \$6 million for all first lien U.S. RMBS transactions.

Second Lien U.S. RMBS Loss Projections

Second lien U.S. RMBS transactions include both home equity lines of credit ("HELOC") and closed end second lien mortgages. The Company believes the primary variable affecting its loss reserves in second lien U.S. RMBS transactions is the amount and timing of future losses or recoveries in the collateral pool supporting the transactions (including recoveries from previously charged-off loans). Loss reserves are also a function of the structure of the transaction, the prepayment speeds of the collateral, the interest rate environment, and assumptions about loss severity.

The Company estimates the amount of loans that will default over the next several years by first calculating expected liquidation rates for delinquent loans, and applying liquidation rates to currently delinquent loans in order to arrive at an expected dollar amount of defaults from currently delinquent collateral (plateau period defaults).

Similar to the methodology applied to first lien U.S. RMBS transactions, the Company then calculates a CDR that will cause the targeted amount of liquidations to occur during the plateau period.

For the base scenario, the CDR plateau is held constant for 36 months. Once the plateau period ends, the CDR is assumed to trend down in uniform increments for one year to its final long-term steady state CDR (5% of original plateau).

HELOC loans generally permit the borrower to pay only interest for an initial period (often ten years) and, after that period, require the borrower to make both the monthly interest payment and a monthly principal payment. This causes the borrower's total monthly payment to increase, sometimes substantially, at the end of the initial interest-only period. A substantial number of loans in the Company's insured transactions had been modified to extend the interest-only period to 15 years. The majority of the modified loans have reset to full amortization.

The Company has observed the performance of the modified loans that have finally reset to full amortization and noted low levels of delinquency, even with substantial increases in monthly payments. This observed performance lowers the level of uncertainty regarding this modified cohort.

When a second lien loan defaults, there is generally a low recovery. The Company assumed, as of March 31, 2024, and December 31, 2023, that it will generally recover 2% of future defaulting collateral at the time of charge-off, with additional amounts of post charge-off recoveries projected to come in over time. A second lien on the borrower's home may be retained in the Company's second lien transactions after the loan is charged off and the loss applied to the transaction, particularly in cases where the holder of the first lien has not foreclosed. If the second lien is retained and the value of the home increases, the servicer may be able to use the second lien to increase recoveries, either by arranging for the borrower to resume payments or by realizing value upon the sale of the underlying real estate. The Company evaluates its assumptions quarterly based on actual recoveries of charged-off loans observed from period to period and reasonable expectations of future recoveries. In instances where the Company is able to obtain information on the lien status of charged-off loans, it assumes there will be a certain level of future recoveries of the balance of the charged-off loans where the second lien is still intact. The Company's base scenario recovery assumption for charged-off loans is 40%. Such recoveries are assumed to be received evenly over the next five years.

The rate at which the principal amount of loans is prepaid may impact both the amount of losses projected as well as the amount of excess spread. In the base scenario, an average CPR (based on experience of the past year) is assumed to continue until the end of the plateau before gradually increasing to the final CPR over the same period the CDR decreases. The final CPR is assumed to be 15% for second lien U.S. RMBS transactions (in the base scenario), which is lower than the historical average but reflects the Company's continued uncertainty about the projected performance of the borrowers in these transactions. For transactions where the initial CPR is higher than the final CPR, the initial CPR is held constant and the final CPR is not used. This pattern is consistent with how the Company modeled the CPR as of December 31, 2023. To the extent that prepayments differ from projected levels, the Company's projected excess spread and losses could materially change.

In estimating loss reserves, the Company modeled and probability weighted five scenarios, each with a different CDR curve applicable to the period preceding the return to the long-term steady state CDR. The Company believes that the level of the elevated CDR and the length of time it will persist, the ultimate prepayment rate and recoveries for charged-off loans are the primary drivers of the amount of losses the collateral will likely suffer.

The following table shows the range as well as the average, weighted by net par outstanding, for key assumptions used in the calculation of loss reserves for individual transactions for vintage 2004 - 2008 HELOCs.

STATEMENT AS MARCH 31, 2024 OF ASSURED GUARANTY CORP.

Key Assumptions in Base Scenario Loss Reserve Estimates HELOCs

	As of March 31, 2024		As of December 31, 2023	
	Range	Weighted Average	Range	Weighted Average
Plateau CDR	0.0% - 6.3%	3.4%	0.0% - 6.8%	3.1%
Final CDR	0.0% - 0.3%	0.2%	0.0% - 0.3%	0.2%
Liquidation rates:				
Current but recently delinquent	20%		20%	
30 - 59 Days Delinquent	30		30	
60 - 89 Days Delinquent	40		40	
90+ Days Delinquent	60		60	
Bankruptcy	55		55	
Foreclosure	55		55	
Real Estate Owned	100		100	
Loss severity on future defaults	98%		98%	
Projected future recoveries on previously charged-off loans	40%		40%	

The Company continues to evaluate the assumptions affecting its modeling results. The Company believes the most important driver of its projected second lien RMBS losses is the performance of its HELOC transactions. Total net expected recoverables for all second lien U.S. RMBS were \$29 million as of March 31, 2024, and \$27 million as of December 31, 2023. After giving effect to losses paid of \$1 million in 2024, the loss and LAE incurred was primarily attributable to weaker performance in certain transactions.

The Company modeled scenarios with a longer period of elevated defaults and others with a shorter period of elevated defaults as well as various levels of assumed recoveries. In the Company's most stressful scenario, assuming 10% recoveries on charged-off loans, increasing the CDR plateau to 42 months and increasing the ramp-down by four months to 16 months (for a total stress period of 58 months) would decrease the expected recovery by approximately \$16 million for HELOC transactions. On the other hand, in the Company's least stressful scenario, assuming 80% recoveries on charged-off loans, reducing the CDR plateau to 30 months and decreasing the length of the CDR ramp-down to eight months (for a total stress period of 38 months), and lowering the ultimate prepayment rate to 10% would increase the expected recovery by approximately \$21 million for HELOC transactions.

Life Insurance Transactions

The Company also had exposure to troubled life insurance transactions with BIG net par of \$86 million as of March 31, 2024.

Footnotes for Parts I through IV:

- Unless otherwise indicated by percentage ownership or other relationship, the ownership interest is 100%.
- All companies listed are corporations, except for (i) limited liability companies (designated as LLCs) and (ii) EFS-AGIC Master Business Trust and New Generation Funding Trust 178 (which are both Delaware trusts).
- Mogador Limited is wholly owned by Sanne Nominees Limited and Sanne Nominees 2 Limited, which companies are organized under the laws of Jersey, Channel Islands and are not owned or controlled by Assured Guaranty Ltd. Mogador Limited is (i) the depositor of New Generation Funding Trust 178 and (ii) the seller of protection on derivatives guaranteed by Assured Guaranty UK Limited (as successor to CIFG Europe S.A.) and Assured Guaranty Corp. (as successor to CIFG Assurance North America, Inc.).
- Sound Point Capital Management, LP (“Sound Point”) is an investment adviser registered with the U.S. Securities and Exchange Commission (“SEC”) that manages various funds and separate accounts. In addition, Sound Point or Sound Point GP Parent, LLC (“Sound Point GP Parent”), is the sole or managing member of various limited liabilities companies that, in turn, act as the general partners of, and thereby control, certain of the various funds managed by Sound Point and its affiliates. As a result of a business combination of the asset management business of Assured Guaranty Ltd. with Sound Point completed on July 1, 2023, Assured Guaranty became a ~30% owner of each of Sound Point and Sound Point GP Parent with ~24.9% voting power, and certain subsidiaries of Assured Guaranty have investments in various funds managed by Sound Point and its affiliates.
- Assured GP Carry Holdco LLC holds (i) approximately 20% of the limited liability company membership interests of AHP Fund I GP LLC as a non-managing member and (ii) approximately 40% of the limited liability company membership interests of AHP Fund II GP LLC as a non-managing member. The remaining approximately 80% of the limited liability company membership interests of AHP Fund I GP LLC and approximately 60% of the limited liability company membership interests of AHP Fund II GP LLC are held by the investment team managing AHP Fund I and AHP Fund II. Both AHP Fund I and AHP Fund II are managed by Assured Healthcare Partners LLC, which was sold by Assured Guaranty in July 2023 and is now independently operated by its investment team.
