EMBRACE POSSIBILITIES, INVEST IN CERTAINTIES

Equity Investor Presentation

December 31, 2016

ASSURED GUARANTY®

Forward-Looking Statements and Safe Harbor Disclosure

- This presentation contains information that includes or is based upon forward looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward looking statements give the expectations or forecasts of future events of Assured Guaranty Ltd. ("AGL") and its subsidiaries (collectively with AGL, "Assured Guaranty" or the "Company"). These statements can be identified by the fact that they do not relate strictly to historical or current facts and relate to future operating or financial performance. Any or all of Assured Guaranty's forward looking statements herein are based on current expectations and the current economic environment and may turn out to be incorrect. Assured Guaranty's actual results may vary materially. Among factors that could cause actual results to differ adversely are: (1) reduction in the amount of available insurance opportunities and/or in the demand for Assured Guaranty's insurance; (2) rating agency action, including a ratings downgrade, a change in outlook, the placement of ratings on watch for downgrade, or a change in rating criteria, at any time, of AGL or any of its subsidiaries, and/or of any securities AGL or any of its subsidiaries have issued, and/or of transactions that AGL's subsidiaries have insured; (3) developments in the world's financial and capital markets that adversely affect obligors' payment rates, Assured Guaranty's loss experience, or its exposure to refinancing risk in transactions (which could result in substantial liquidity claims on its guarantees); (4) the possibility that budget or pension shortfalls or other factors will result in credit losses or impairments on obligations of state, territorial and local governments and their related authorities and public corporations that Assured Guaranty insures or reinsures; (5) the failure of Assured Guaranty to realize loss recoveries that are assumed in its expected loss estimates; (6) increased competition, including from new entrants into the financial guaranty industry; (7) rating agency action on obligors, including sovereign debtors, resulting in a reduction in the value of securities in Assured Guaranty's investment portfolio and in collateral posted by and to Assured Guaranty; (8) the inability of Assured Guaranty to access external sources of capital on acceptable terms; (9) changes in the world's credit markets, segments thereof, interest rates or general economic conditions; (10) the impact of market volatility on the mark-to-market of Assured Guaranty's contracts written in credit default swap form; (11) changes in applicable accounting policies or practices; (12) changes in applicable laws or regulations, including insurance, bankruptcy and tax laws, or other governmental actions; (13) the impact of changes in the world's economy and credit and currency markets and in applicable laws or regulations relating to the decision of the United Kingdom to exit the European Union; (14) the possibility that acquisitions or alternative investments made by Assured Guaranty do not result in the benefits anticipated or subject Assured Guaranty to unanticipated consequences; (15) deterioration in the financial condition of Assured Guaranty's reinsurers, the amount and timing of reinsurance recoverables actually received and the risk that reinsurers may dispute amounts owed to Assured Guaranty under its reinsurance agreements; (16) difficulties with the execution of Assured Guaranty's business strategy; (17) loss of key personnel; (18) the effects of mergers, acquisitions and divestitures; (19) natural or man-made catastrophes; (20) other risk factors identified in AGL's filings with the U.S. Securities and Exchange Commission (the SEC); (21) other risks and uncertainties that have not been identified at this time; and (22) management's response to these factors.
- The foregoing review of important factors should not be construed as exhaustive, and should be read in conjunction with the other cautionary statements that are included in the Company's Form 10-K filing. The Company undertakes no obligation to update publicly or review any forward looking statement, whether as a result of new information, future developments or otherwise, except as required by law. Investors are advised, however, to consult any further disclosures the Company makes on related subjects in the Company's reports filed with the SEC.
- If one or more of these or other risks or uncertainties materialize, or if the Company's underlying assumptions prove to be incorrect, actual results may vary materially from what the Company projected. Any forward looking statements in this presentation reflect the Company's current views with respect to future events and are subject to these and other risks, uncertainties and assumptions relating to its operations, results of operations, growth strategy and liquidity.
- For these statements, the Company claims the protection of the safe harbor for forward looking statements contained in Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act").

Conventions and Non-GAAP Financial Measures

- Unless otherwise noted, the following conventions are used in this presentation:
  - Ratings on Assured Guaranty's insured portfolio and on bonds purchased pursuant to our loss mitigation or risk management strategies are our internal credit ratings. Internal credit ratings are expressed on a ratings scale similar to that used by the rating agencies and are generally reflective of an approach similar to that employed by the rating agencies, except that the Company's credit ratings focus on future performance, rather than lifetime performance. Exposures rated below investment grade are designated "BIG".
  - The Company reclassifies those portions of risks benefitting from collateralized reimbursement arrangements as the higher of AA or their current internal rating.
  - The Company excludes Company-insured securities that it has purchased for loss mitigation purposes from its disclosure of par and debt service outstanding (unless otherwise indicated) because it manages such securities as investments and not insurance exposure.
  - Ratings on the investment portfolios are the lower of the ratings from Moody's Investors Service, Inc. ("Moody's") or S&P Global Ratings Services ("S&P").
  - Percentages and totals in tables or graphs may not add due to rounding.
- This presentation references financial measures that are not in accordance with U.S. generally accepted accounting principles ("GAAP"), which management uses in order to assist analysts and investors in evaluating Assured Guaranty's financial results. These financial measures determined on the basis of methodologies other than in accordance with GAAP ("non-GAAP financial measures") are defined in the Appendix. Prior to fourth quarter 2016 the Company had previously excluded the effect of consolidating FG VIEs in its calculation of its non-GAAP financial measures of Operating Income, Operating ROE, Non-GAAP Operating Shareholders' Equity and Non-GAAP Adjusted Book Value. Starting in fourth quarter 2016, based on the SEC's May 2016 Compliance and Disclosure Interpretations ("C&DIs") on Non-GAAP measures issued in 2016, the Company will no longer adjust for the effect of consolidating FG VIEs. However, wherever possible, the Company has separately disclosed the effect of consolidating FG VIEs ("FG VIE consolidation") that is included in its non-GAAP financial measures. The relevant non-GAAP financial measures for prior periods have been updated to reflect the revised calculation consistently for all periods presented. See the Appendix for a more comprehensive description of non-GAAP financial measures.
- When a financial measure is described as "operating," it is a non-GAAP measure.

Table of Contents

Fourth Quarter 2016 Accomplishments

- **Earned $139 million of operating income[1](non-GAAP), or $1.05 per share, which includes $16 million, or $0.12 per share, attributable to the effect of consolidating FG VIEs**

- **Increased shareholders' equity per share, non-GAAP operating shareholders' equity[1] per share and Non-GAAP adjusted book value[1] per share, reaching new records of $50.82, $49.89 and $66.46, respectively**

- **Generated $85 million of new business production[1] in 4Q-16, a 70% increase over 3Q-16 and a 12% increase over 4Q-15**

- **Repurchased an additional 3.3 million common shares ($116 million) at an average price of $35.09**

- **Terminated $1.0 billion of insured net par outstanding, increasing excess capital and reducing potential future losses**

- **Purchased approximately $25 million par of insured securities, at a cost of $20 million, for loss mitigation purposes**

- **Completed a $300 million AGM stock redemption plan after receiving approval from the New York State Department of Financial Services**

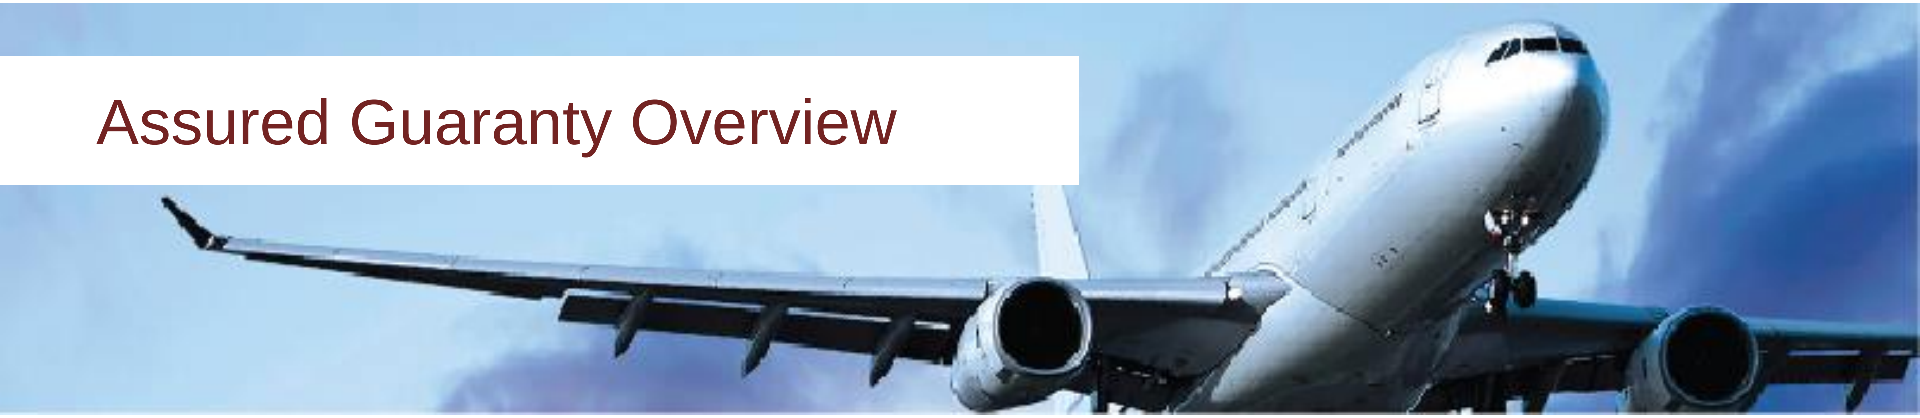
1. For an explanation of non-GAAP financial measures, please refer to the Appendix.

FY 2016 Accomplishments

- **Earned $895 million of operating income[1](non-GAAP), or $6.68 per share, which includes $12 million, or $0.10 per share attributable to the effect of consolidating FG VIEs**
- **Generated $214 million of new business production[1] in 2016, a 20% increase over 2015**
- **Repurchased an additional 11 million common shares ($306 million) at an average price of $28.53**
- **Terminated approximately $7 billion of insured net par outstanding, increasing excess capital and reducing potential future losses**
- **Purchased approximately $251 million par of insured securities, at a cost of $173 million, for loss mitigation purposes**
- **Acquired the parent of financial guaranty insurer CIFG Assurance North America, Inc. (CIFG) on July 1, which added $293 million to non-GAAP operating shareholders' equity[1] and $512 million to non-GAAP adjusted book value[1] at the acquisition date**

1. For an explanation of non-GAAP financial measures, please refer to the Appendix.

Assured Guaranty Overview



Assured Guaranty Overview

Assured Guaranty Ltd.

($ in billions)	December 31, 2016	September 30, 2009
Net par outstanding	$296.3	$646.6
U.S. public finance	$244.8	$424.9
U.S. structured finance	$22.1	$142.2
Non-U.S.	$29.5	$79.5
Total investment portfolio + cash	$11.1	$10.2
Net unearned premium reserve[1]	$3.3	$7.5
Claims-paying resources[2]	$11.7	$12.6
Ratio of net par outstanding / claims-paying resources[2]	**25:1**	**51:1**

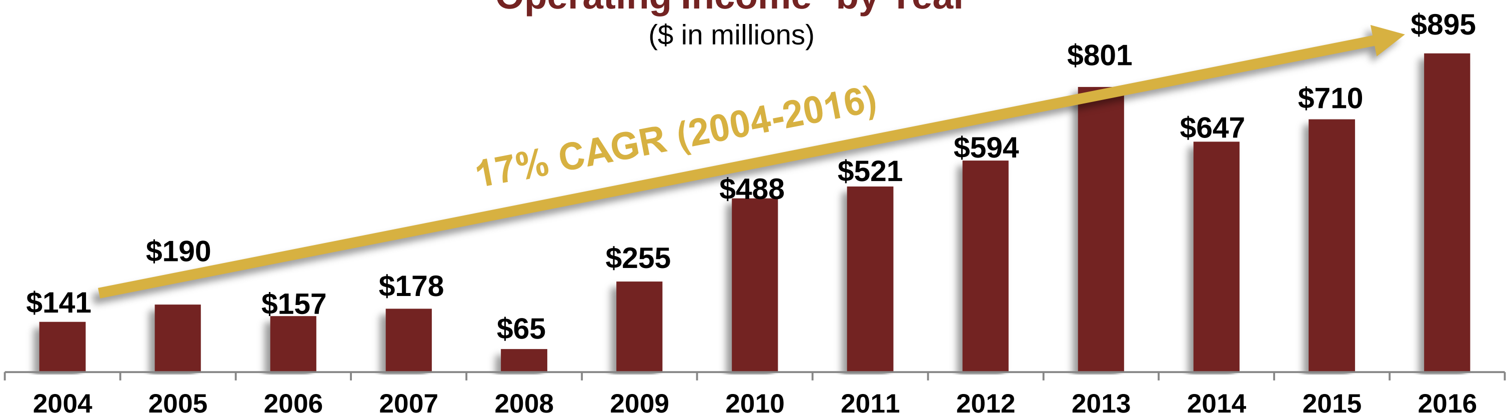
- **We are the leading financial guaranty franchise, with over three decades of experience in the municipal and structured finance markets**
- **In the U.S., we serve the bond insurance market through three platforms:**
  - Assured Guaranty Municipal Corp. (AGM), rated AA+ (stable) by KBRA, AA (stable) by S&P and A2 (stable) by Moody's, focuses on public finance and infrastructure transactions
  - Municipal Assurance Corp. (MAC), rated AA+ (stable) by KBRA and AA (stable) by S&P, focuses on smaller public finance transactions
  - Assured Guaranty Corp. (AGC), rated AA (stable) by KBRA, AA (stable) by S&P and A3 (stable)[3] by Moody's, guarantees public finance, global infrastructure and structured finance transactions
- **Our insured portfolio has an average internal rating of A**

1. Unearned premium reserve net of ceded unearned premium reserve.
2. Based upon statutory accounting.
3. On January 13, 2017, AGC requested that Moody's withdraw AGC's financial strength rating. Moody's has not yet replied.

Assured Guaranty Overview

- **Since our initial public offering in 2004, we have grown our annual operating income[1] from $141 million in 2004 to $895 million in 2016, a 17% compounded annual growth rate (CAGR).**
- **Operating income[1] has grown through acquisitions, new business production and other strategic activities**
  - Recapture of previously ceded business
  - Acceleration of premium through termination of insured exposure
- **Opportunistic repurchase of our shares improves operating income per share[1]**

Operating Income[1] by Year
($ in millions)



Gain (loss) related to FG VIE consolidation included in non-GAAP operating income:	N/A	N/A	N/A	N/A	N/A	N/A	$(167)	$(80)	59	$192	$156	$11	$12

1. For explanations and reconciliations of operating income and operating income per share, which are non-GAAP financial measures, please refer to the Appendix. The prior-year non-GAAP financial measures have been updated to reflect the revised calculation as discussed in "Explanation of Non-GAAP Financial Measures."

Assured Guaranty Overview
Track Record of Creating Shareholder Value

- **We have returned excess capital to shareholders by distributing dividends and repurchasing our common shares**
  - Since 2013, when we started our capital management strategy of repurchasing our common shares, through December 31, 2016, we have repurchased 69 million shares, or roughly 35% of our shares outstanding, for approximately $1.7 billion.
  - In 2016, we repurchased 11 million common shares for $306 million at an average price per share of $28.53. In February 2017, an incremental $300 million share repurchase authorization was approved, which brings the total current authorization to $407 million.
  - Since our 2004 IPO, we have more than tripled our quarterly dividend per share. In February 2017, our Board of Directors authorized an increase in the quarterly dividend to $0.1425 per share. We have raised our quarterly dividends for six consecutive years.
  - On November 28, 2016, AGM announced that the New York State Department of Financial Services approved a $300 million stock redemption plan, which AGM subsequently completed. We intend to use the proceeds to repurchase our common shares.

Total stat capital and surplus	$1,256
25% of stat capital and surplus	**$314**
Outstanding statutory surplus	**$398**
Unencumbered assets	**$596**
2017 Dividend Limitation	**$314**

1. Earned surplus is currently approximately $1.7 billion. Earned surplus is the portion of the company's surplus that represents the net earnings, gains or profits (after deduction of all losses) that have not been distributed to shareholders as dividends or transferred to stated capital or capital surplus, or applied to other purposes permitted by law, but does not include unrealized appreciation of assets.
2. AGM and AGC anticipates receiving dividends from MAC over the course of 2017. See page 11 for more details.

Assured Guaranty Overview

Simplified Corporate Structure[1]

Shareholders

Assured Guaranty Ltd.
(Head Office – Bermuda; Tax Residence – U.K.)

- Total investment portfolio and cash is $36 million[2]
- FY 2016 expenses of $29 million
- FY 2016 dividend distribution of $69 million

Assured Guaranty Re Ltd.
(Bermuda)

In 2017, AG Re has the capacity to (i) make capital distributions in an aggregate amount up to $128 million without prior regulatory approval and (ii) declare and pay dividends in an aggregate amount up to the limit of its outstanding statutory surplus, which is $314 million as of December 31, 2016. As of December 31, 2016, AG Re had unencumbered assets of approximately $596 million.

Assured Guaranty US Holdings Inc.
(U.S.)

- Combined investment portfolio and cash of $406 million[2]
- Annual debt service of $95 million in 2016

Assured Guaranty Municipal Holdings Inc.
(U.S.)

Assured Guaranty Corp.
(U.S.)

The maximum amount available during 2017 for AGC to distribute as ordinary dividends is approximately $107 million, of which approximately $29 million is available for distribution in the first quarter of 2017.

Municipal Assurance Corp.
(U.S.)

The maximum amount available during 2017 for MAC to distribute as dividends without regulatory approval is estimated to be approximately $49 million, of which MAC currently intends to allocate the distribution of such amount quarterly in 2017[3].

Assured Guaranty Municipal Corp.
(U.S.)

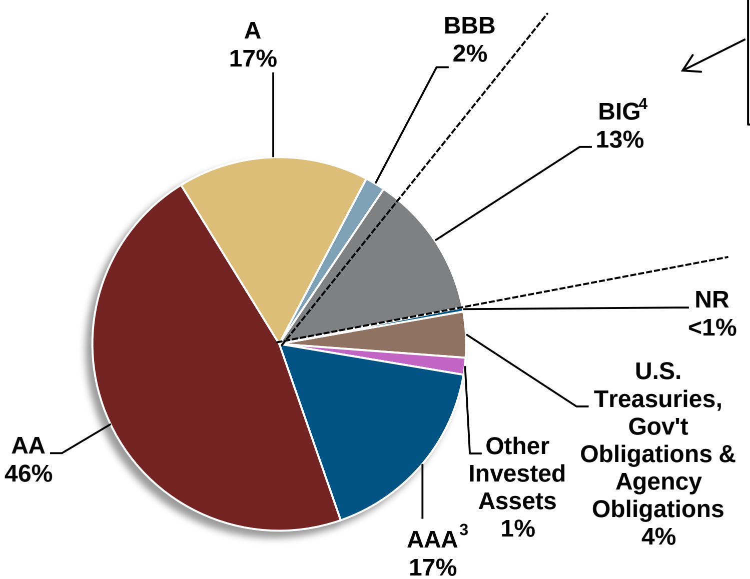
The maximum amount available during 2017 for AGM to distribute as dividends without regulatory approval is estimated to be approximately $232 million, of which approximately $81 million is available for distribution in the first quarter of 2017.

1. Represents dividend capacity as of December 31, 2016. Please see our Form 10-K for the year ended December 31, 2016 for a discussion of the dividend limitations to which we are subject under applicable U.S. and Bermuda law, including the New York Insurance Law and the Maryland Insurance Code.
2. As of December 31, 2016.
3. Dividends from MAC are distributed to AGM and AGC, which may affect AGM's and AGC's dividend capacity in future periods.

Underlying Value

Underlying Value
High-Quality Investment Portfolio

Total Invested Assets and Cash[1,2]
As of December 31, 2016



$11.1 billion, A+ average rating

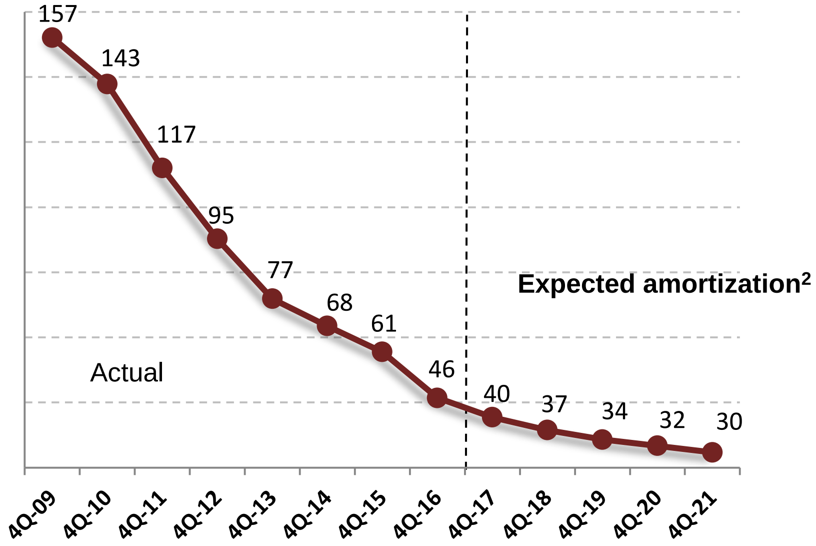
- **Highly rated fixed maturity and short-term investments, 67% rated AA or higher, and cash**
- **Approximately $708 million invested in liquid, short-term investments and cash**
- **Overall duration of portfolio is 5.3 years**

1. Also includes securities purchased or obtained as part of loss mitigation or other risk management strategies.
2. Ratings are represented by the lower of the Moody's and S&P classifications except for bonds purchased for loss mitigation or other risk management strategies, which use internal ratings classifications.
3. Included in the AAA category are short-term securities and cash.
4. Includes long-term BIG securities that were purchased or obtained as part of loss mitigation or other risk management strategies of $2,141 million in par with carrying value of $1,376 million.

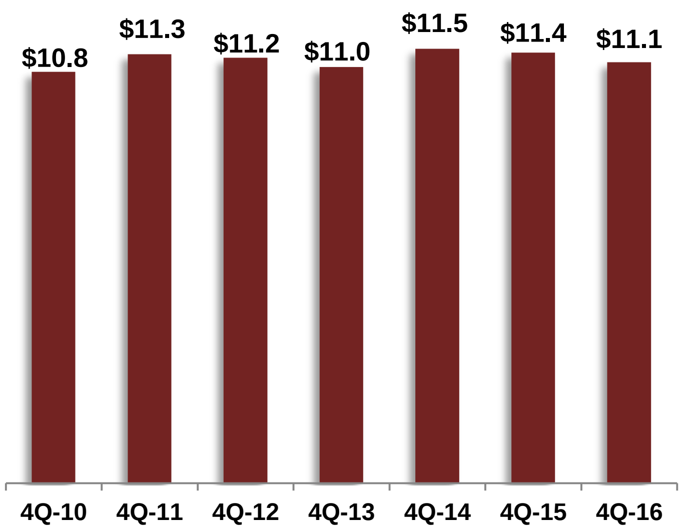
Underlying Value
Deleveraging While Maintaining Total Invested Assets

- **Our insured net par outstanding to non-GAAP operating shareholders' equity[1] has declined from 157:1 in 4Q-09 to 46:1 as of 4Q-16**
  - Deleveraging should continue in the near term as new business is not expected to fully replace the amortization of the portfolio
- **Meanwhile, total invested assets and cash remains comparable to prior amounts**

Non- GAAP Operating Portfolio Leverage
Insured Net Par Outstanding / non-GAAP Operating Shareholders' Equity[1]



Total Invested Assets and Cash
($ in billions)



1. For an explanation of non-GAAP operating shareholders' equity, please refer to the Appendix.
2. Assumes no new business production and calculates estimated amortization divided by current non-GAAP operating shareholders' equity. The prior-year non-GAAP financial measures have been updated to reflect the revised calculation as discussed in "Explanation of Non-GAAP Financial Measures."

Underlying Value

Net Investment Income Generates Capital

- **Net investment income is higher than the combination of operating and interest expenses, a spread that fosters capital growth**

Historical Growth

ASSURED GUARANTY

Non-GAAP Adjusted Book Value[1] per Share

	6/30/04	2004	2005	2006	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016
Shareholders' Equity per share (GAAP):	$18.73	$20.19	$22.22	$24.44	$20.33	$20.62	$18.76	$19.97	$25.52	$25.74	$28.07	$36.37	$43.96	$50.82
Gain (loss) related to FG VIE consolidation included in Non-GAAP operating shareholders' equity per share[1]:								$(2.02)	$(2.44)	$(1.97)	$(1.04)	$(0.24)	$(0.15)	$(0.06)
Gain (loss) related to FG VIE consolidation included in Non-GAAP adjusted book value per share[1]:								$(2.38)	$(3.10)	$(2.33)	$(1.36)	$(0.39)	$(0.31)	$(0.18)

■ Net unearned premium reserve on financial guaranty contracts in excess of net expected loss to be expensed less deferred acquisition costs, after tax
■ Net present value of estimated net future credit derivative revenue in force and net unearned revenue on credit derivatives, after tax
■ Non-GAAP operating shareholders' equity[1]

1. For explanations of non-GAAP adjusted book value and net present value of estimated net future credit derivative revenue and non-GAAP operating shareholders' equity, please refer to the Appendix. Effective January 1, 2010, GAAP accounting required the consolidation of financial guaranty VIEs where the Company is determined to be the control party through rights under our financial guaranty insurance contracts. For those FG VIEs that the Company consolidates, it records all of the activities of the VIEs and eliminates the related insurance accounting. The prior-year non-GAAP financial measures have been updated to reflect the revised calculation as discussed in "Explanation of Non-GAAP Financial Measures."

Creating Value

Creating Value
New Business Production (Par Insured)
Penetration in the U.S. Public Finance Market

- **We are focused on building demand for our guaranties, both in the primary and the secondary markets for U.S. public finance**
  - Primary market policies sold in 2016 totaled 904 or $14.2 billion
  - Secondary market policies sold in 2016 totaled 583 or $1.8 billion
- **Total market issuance increased 12% from 2015 while insured volume increased by less than 1% from 2015**
  - Industry par penetration for all transactions with underlying A ratings increased to 23% in 2016, compared with 22% in 2015
  - Industry penetration based on the number of transactions with underlying A ratings also increased to 56% in 2016 compared with 54% in 2015
- **Industry penetration for smaller deals (transactions under $25 million) based on the number of transactions remained constant at 18% in 2016 compared with 2015**

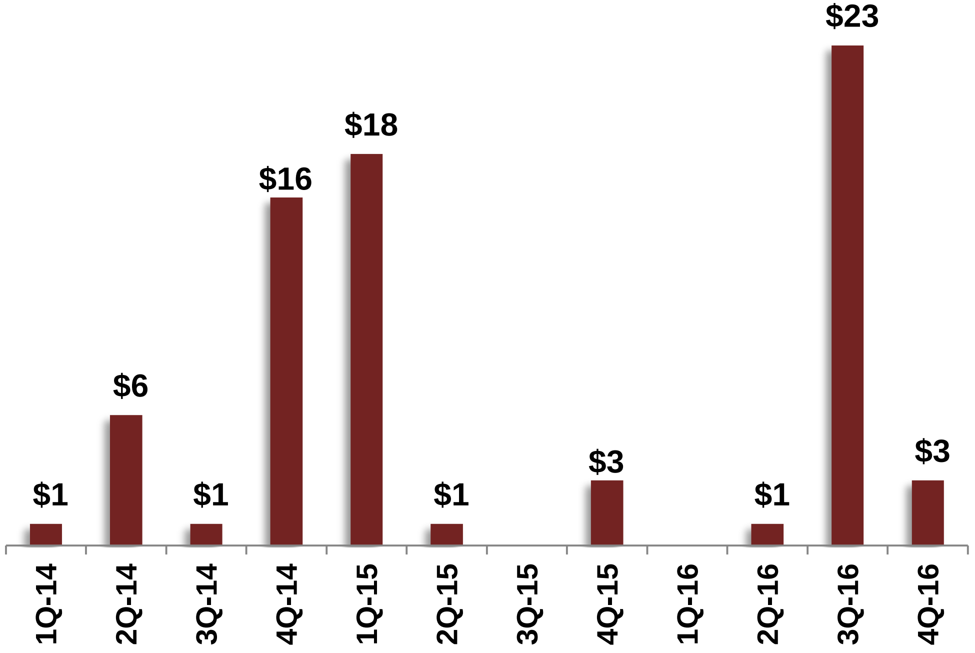
Creating Value
New Business Production
U.S. Structured Finance Business Activity

- **Focus has been on bilateral transaction to improve capital management efficiency**
- **In 2016, completed the following:**
  - **Provided reinsurance related to Triple-X excess of loss life transactions**
  - **Guaranteed an aircraft ABS issuer's obligations to repay advances under a bank liquidity facility**
  - **Provided a balloon note guaranty for a commercial tenant**
- **New structured finance business production tends to fluctuate, as large, complex transactions require a long time frame to close**
- **We expect that capital market structured finance opportunities will increase in the future as the global economy recovers, interest rates rise, more issuers return to the capital markets for financings and institutional investors again utilize financial guaranties**

U.S. Structured PVP[1]
($ in millions)

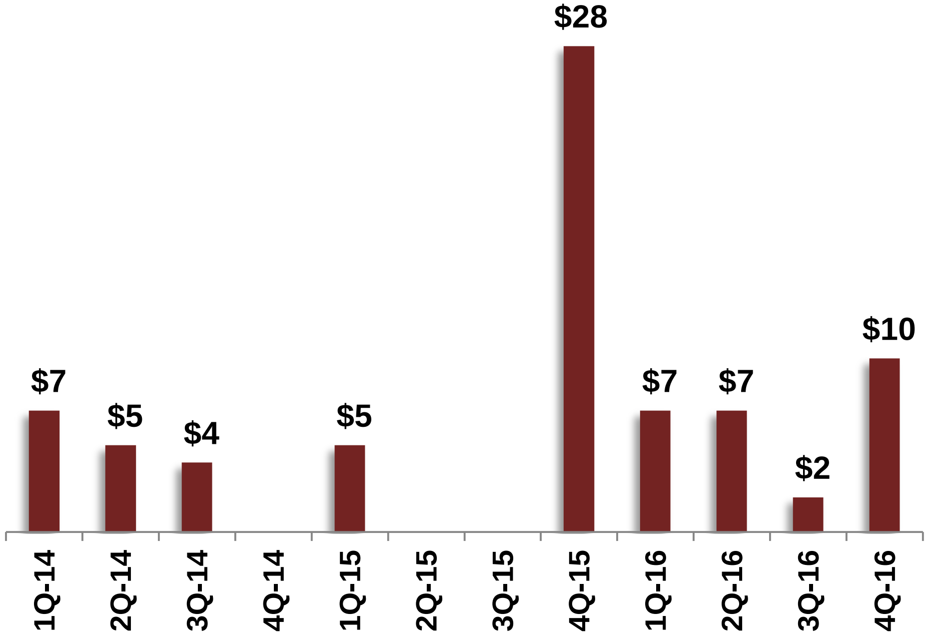


1. For an explanation of new business production, or "PVP", which is a non-GAAP financial measure, please refer to the Appendix.

Creating Value
New Business Production
Non-U.S. Business Activity

- **During 4Q-16, we guaranteed a U.K. student housing transaction**
- **During 3Q-16 and 2Q-16, we issued secondary market financial guarantees on utility bonds**
- **During 1Q-16, we guaranteed a restructuring of an existing transaction**
- **We are optimistic about the pipeline of infrastructure transactions. However, this international business typically comprises a small number of high-value transactions that have longer development periods and multiple counterparties, so the timing of closing transactions is often uncertain**

Non-U.S. PVP[1] by Quarter
($ in millions)



1. For an explanation of new business production, or "PVP," which is a non-GAAP financial measure, please refer to the Appendix.

- **Continued focus on underwriting and pricing discipline**
- **Gross par of new business written increased in 2016 for the third consecutive year, and was the largest amount of annual new business written since 2010.**
  - 4Q-16 PVP increased 70% above 3Q-16 and 12% above 4Q-15, and was the largest quarterly PVP since 4Q-11
  - YE 2016 PVP increased 20% above YE 2015, and was the largest amount annual PVP since 2011

Alternative Strategies
MBIA UK Acquisition

- **On January 10, 2017, AGC completed its acquisition of MBIA UK Insurance Limited ("MBIA UK"). AGC exchanged all its holdings of the Zohar II 2005-1 notes (which had an outstanding par of $347 million and fair value of $334 million as of the date of acquisition) in exchange for the outstanding shares of MBIA UK plus $23 million in cash.**

- **The acquisition is expected to be accretive to Assured Guaranty's earnings per share[1], non-GAAP operating shareholders' equity[1] and non-GAAP adjusted book value[1].**

- **This acquisition fits within the Company's strategy of acquiring high-quality portfolios from inactive financial guaranty insurance companies:**
  - Radian Asset Assurance acquisition closed on April 1, 2015
  - CIFG acquisition closed on July 1, 2016

1. For explanations of non-GAAP financial measures, please refer to the Appendix.

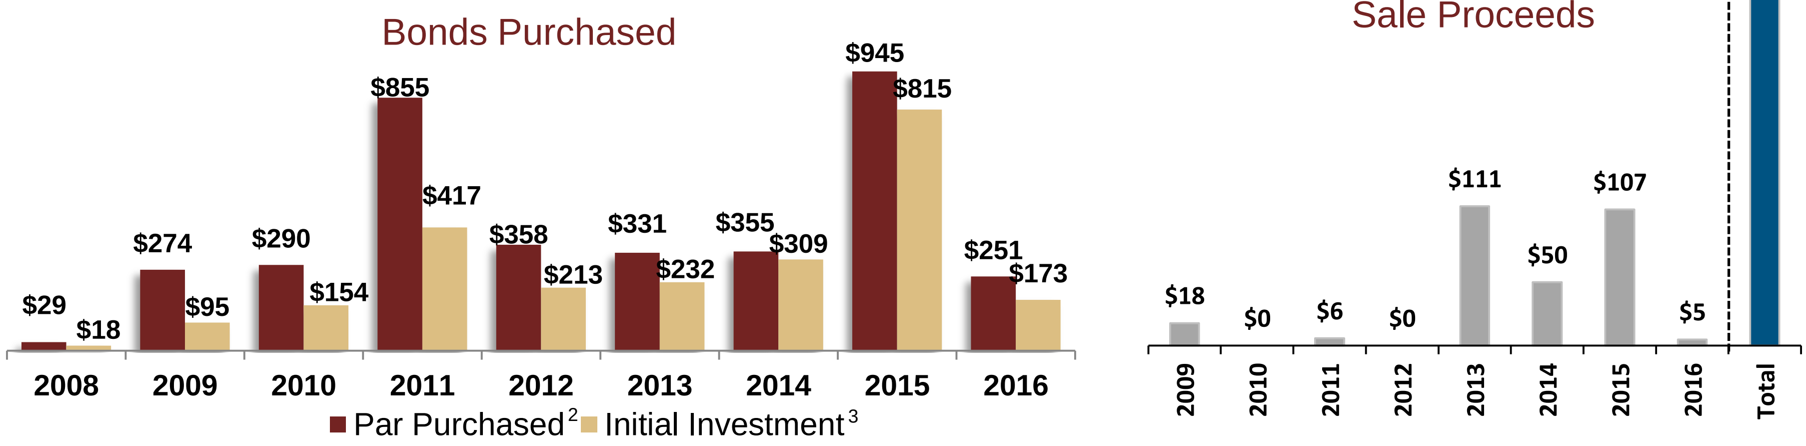
1. For an explanation of non-GAAP adjusted book value, which is a non-GAAP financial measure, please refer to the Appendix.

Creating Value
Loss Mitigation
Bond Purchases

- **Since 2008, for loss mitigation purposes, we have strategically purchased bonds we had previously insured. Besides reducing our losses, these purchases can potentially relieve rating agency capital charges, increase future investment income and increase non-GAAP adjusted book value[1]**
  - The amount of reserves released and the ongoing principal and interest from the bonds are expected to be greater than the purchase price
  - We have purchased approximately $3.7 billion of par on insured securities through December 31, 2016 with an initial purchase price of approximately $2.4 billion
- **Targeted purchases are BIG securities on which claims are expected to be paid**
- **We have removed our insurance subsequent to purchasing some of our insured bonds for loss mitigation purposes and sold the bonds uninsured. This typically creates rating agency capital and an economic benefit**

Loss Mitigation Bond Purchase and Sale Program

($ in millions)



1. For an explanation of non-GAAP adjusted book value, please refer to the Appendix.
2. Par at the time of purchase.
3. Cost of purchase.

Creating Value
Loss Mitigation
Agreements to Terminate Contracts

- **Actively pursue termination of insurance contracts**
  - At beneficiary's request: may keep all economics, possibly more
  - At our request: share economics with beneficiary
  - To eliminate high capital charges: share or possibly give up some economics
- **Since January 1, 2011, approximately $40 billion of net insured par outstanding has been terminated, which reduces our leverage and potentially relieves rating agency capital charges**

Completed Terminations Since January 1, 2011

Fourth Quarter 2016 Loss Measures

Economic loss development (all contracts):

- Represents the expected change in future losses due to changes in transaction performance, discount rates, loss mitigation and other factors that affect the ultimate loss experience. Economic loss development excludes the effects of deferred premium revenue. The effect of changes in discount rates that is included in total economic loss development is not indicative of credit impairment or improvement.

Loss and LAE reported on the Consolidated Statement of Operations:

- Represents loss and loss adjustment expenses (LAE) for contracts accounted for as financial guaranty insurance ONLY
  - GAAP accounting model generally recognizes loss and LAE in income only to the extent and for the amount that such losses exceed deferred premium revenue on a transaction by transaction basis.

Non-GAAP Operating loss and LAE:

- Comprises:
  - loss and LAE described above, and
  - Losses attributable to credit derivatives

($ in millions, except per share amounts)	4Q-16		4Q-15	
Financial Guaranty	**Amount**	**Per Diluted Share**	**Amount**	**Per Diluted Share**

1. The numbers shown for Assured Guaranty Municipal Corp. (AGM) and Assured Guaranty Corp. (AGC) have been adjusted to include (i) their 100% share of their respective U.K. insurance subsidiaries and (ii) their indirect share of Municipal Assurance Corp. (MAC). AGM and AGC own 60.7% and 39.3%, respectively, of the outstanding stock of Municipal Assurance Holdings Inc., which owns 100% of the outstanding common stock of MAC. Amounts include financial guaranty insurance and credit derivatives.
2. Represents an aggregate $360 million excess-of-loss reinsurance facility for the benefit of AGC, AGM and MAC, which became effective January 1, 2016. The facility terminates on January 1, 2018, unless AGC, AGM and MAC choose to extend it.
3. Eliminations are primarily for (i) intercompany surplus notes between AGM and AGC, and (ii) MAC amounts, whose proportionate share are included in AGM and AGC based on ownership percentages. Net par and net debt service outstanding eliminations relate to second-to-pay policies under which an Assured Guaranty insurance subsidiary guarantees an obligation already insured by another Assured Guaranty insurance subsidiary, and net par related to intercompany cessions from AGM and AGC to MAC.
4. Represents adjustments for AGM's and AGC's interest and indirect ownership of MAC.
5. Net par outstanding and net debt service outstanding are presented on a statutory basis.
6. The capital ratio is calculated by dividing adjusted net debt service outstanding by qualified statutory capital.
7. The financial resources ratio is calculated by dividing adjusted net debt service outstanding by total claims-paying resources (including MAC adjustment for AGM and AGC).
8. Assured Guaranty Re Ltd. (AG Re) numbers represent the Company's estimate of U.S. statutory accounting practices prescribed or permitted by insurance regulatory authorities, except for contingency reserves.

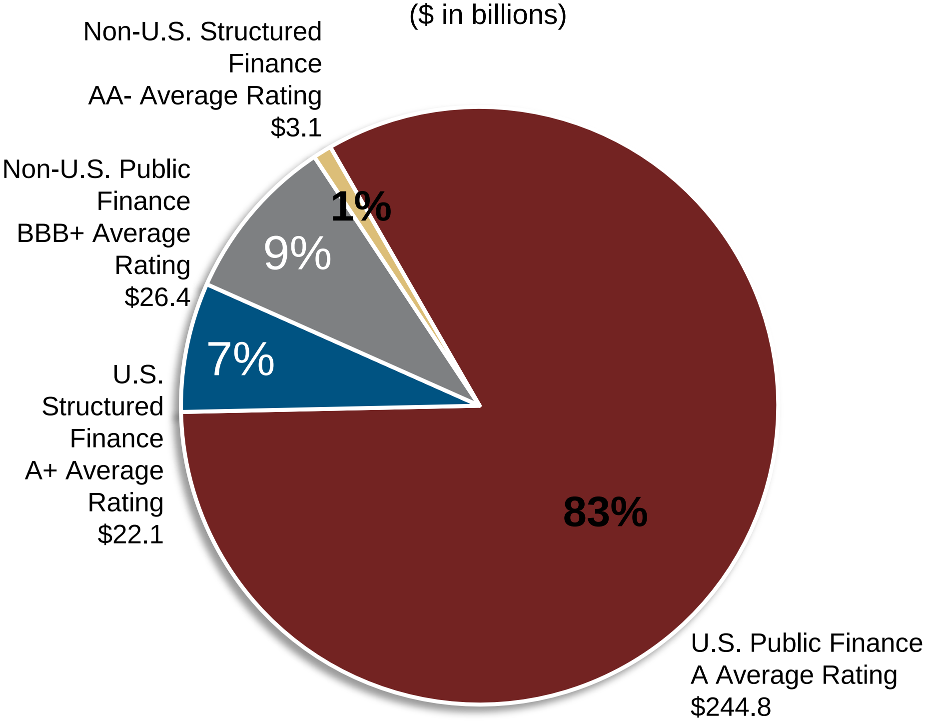
Net Par Outstanding By Sector

- **Assured Guaranty's insured portfolio is largely concentrated in U.S. public finance**
  - 83% U.S. public finance
  - 7% U.S. structured finance
  - 9% Non-U.S. public finance
  - 1% Non-U.S. structured finance
- **Our insured portfolio has an A average internal credit rating**
  - 4.4% below investment grade
- **U.S. public finance is the sector with the largest BIG exposure**
  - $7.4 billion of par exposure (56% of our total BIG)
  - Out of this $7.4 billion, $4.8 billion of net par exposure relates to Puerto Rico

Consolidated Net Par Outstanding

As of December 31, 2016

($ in billions)



$296.3 billion, A average rating

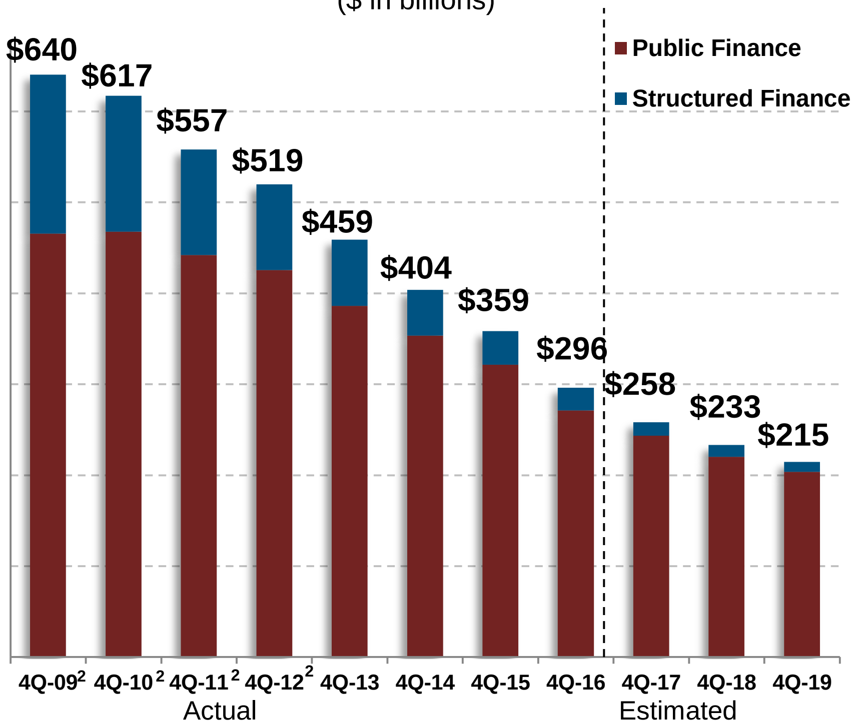
Net Par Outstanding Amortization

- **Amortization of the existing portfolio reduces rating agency capital charges, but also embedded future earned premiums**
- **New direct or assumed business originations, reassumptions and acquisitions will increase future premiums**
- **Public finance existing exposure amortizes at a steady rate**
  - $271 billion outstanding
  - 10% expected to amortize by the end of 2017; 19% by the end of 2018; 25% by the end of 2019
- **Structured finance existing exposure amortizes quickly**
  - $25 billion outstanding
  - 40% expected to amortize by the end of 2017; 49% by the end of 2018; 56% by the end of 2019

Consolidated Net Par Outstanding Amortization[1]

As of December 31, 2016

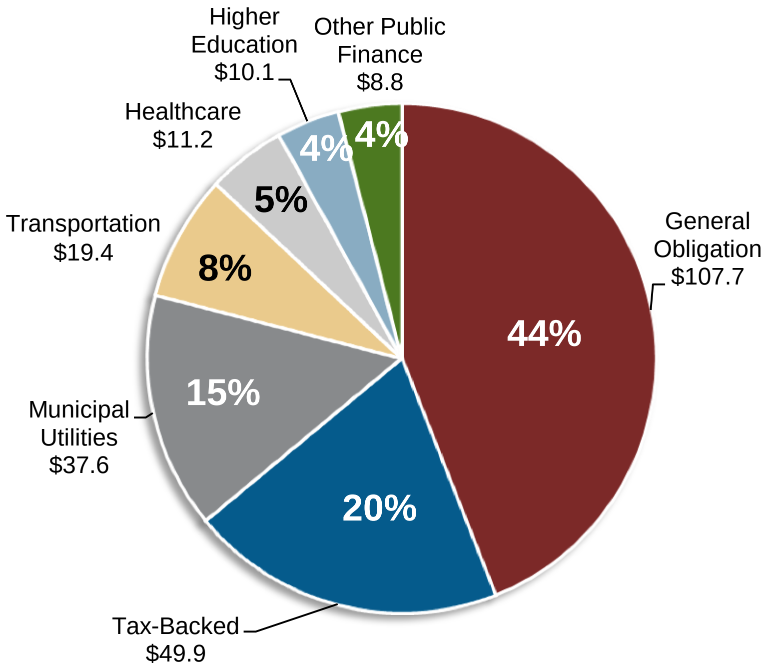
($ in billions)



1. Represents the future expected amortization of existing net par outstanding as of December 31, 2016. Actual amortization of the existing portfolio will differ from the expected shown here because, for example, (1) some obligors may call, prepay or defease guaranteed obligations (e.g., in the context of U.S. public finance refundings), and (2) the expected amortization of structured finance transactions is based in part on management's assumptions regarding the performance of the underlying assets while the actual performance of those assets may differ from management's assumptions. Actual amortization of the U.S. public and global infrastructure finance portfolio and the structured finance portfolio may be faster or slower than expected by management, both portfolios may differ in the same direction and one portfolio may amortize more quickly while the other may amortize more slowly.
2. Gross of wrapped bond purchases made primarily for loss mitigation.

U.S. Public Finance
Net Par Outstanding

U.S. Public Finance
As of December 31, 2016
($ in billions)



$244.8 billion, A average rating

1. Includes exposure to Puerto Rico credits discussed on the following pages.

- **U.S. public finance net par outstanding is $244.8 billion and makes up 83% of our total insured portfolio as of December 31, 2016**
- **U.S. public finance portfolio generally performed well during the recession and in subsequent years, despite persistent financial pressures on municipal obligors**
  - Our portfolio is well-diversified with approximately 8,800 direct U.S. public finance obligors. We expect future losses to be paid, net of recoveries, on less than a dozen exposures[1].
  - We have proactively managed those exposures that have experienced credit deterioration and payment default, like Detroit, Harrisburg and Stockton, with ultimately minimal losses.
  - Our Puerto Rico exposure represents our largest below investment grade U.S. public finance exposure.
- **General obligation, tax-backed and municipal utilities represent 80% of U.S. public finance net par outstanding**
  - 66% of total net par outstanding

Public Finance

Puerto Rico Exposure

Par Exposure to the Commonwealth and its Agencies

As of December 31, 2016

	($ in millions)	Net Par Outstanding[2,5]	Gross Par Outstanding
Commonwealth Constitutionally Guaranteed	Commonwealth of Puerto Rico - General Obligation Bonds[4]	$1,476	$1,577
	Puerto Rico Public Buildings Authority (PBA)[4]	169	174
	Subtotal	**$1,645**	**$1,751**

	Puerto Rico Convention Center District Authority (PRCCDA)[3]	152	152
	Puerto Rico Infrastructure Financing Agency (PRIFA)[3,4]	18	18
	Subtotal	**$1,438**	**$1,675**
Other Public Corporations	Puerto Rico Electric Power Authority (PREPA)	724	876
	Puerto Rico Aqueduct and Sewer Authority (PRASA)	373	373
	Puerto Rico Municipal Finance Agency (MFA)	334	488
	Puerto Rico Sales Tax Finance Corp. (COFINA)	271	271
	University of Puerto Rico (U of PR)	1	1
	Subtotal	**$1,703**	**$2,009**
	Total[1]	**$4,786**	**$5,435**

1. AGL's consolidated net par outstanding is divided between its subsidiaries as follows: $2.0 billion at AGM, $1.7 billion at AGC, $1.1 billion at AG Re, and $0 at MAC. A portion of the subsidiary level exposure is eliminated upon consolidation due to instances where one subsidiary's insured bonds were previously insured by another subsidiary.
2. Includes exposure to Capital Appreciation Bonds with a current aggregate net par outstanding of $31 million and a fully accreted net par at maturity of $63 million. Of these amounts, current net par of $19 million and fully accreted net par at maturity of $50 million relate to Puerto Rico Sales Tax Financing Corporation, current net par of $7 million and fully accreted net par at maturity of $7 million relate to the PRHTA, and current net par of $5 million and fully accreted net par at maturity of $5 million relate to the Commonwealth General Obligation Bonds.
3. The Governor of Puerto Rico issued executive orders on November 30, 2015, and December 8, 2015, directing the Puerto Rico Department of Treasury and the Puerto Rico Tourism Company to retain or transfer certain taxes and revenues pledged to secure the payment of bonds issued by PRHTA, PRIFA and PRCCDA. On January 7, 2016, the Company sued various Puerto Rico governmental officials in the United States District Court, District of Puerto Rico asserting that this attempt to "claw back" pledged tax revenues is not needed to pay General Obligation debt service and therefore unconstitutional, and demanding declaratory and injunctive relief. On October 14, 2016, the Commonwealth defendants filed a notice of automatic stay under the Puerto Rico Oversight, Management, and Economic Stability Act (PROMESA).
4. As of the date of the Company's 2016 10-K filing, the Company has paid claims on these credits.
5. The general obligation bonds of Puerto Rico and various obligations of its related authorities and public corporations are rated triple-C or below.

1. Includes exposure to Capital Appreciation Bonds with a current aggregate net par outstanding of $31 million and a fully accreted net par at maturity of $63 million. Of these amounts, current net par of $19 million and fully accreted net par at maturity of $50 million relate to Puerto Rico Sales Tax Financing Corporation, current net par of $7 million and fully accreted net par at maturity of $7 million relate to the PRHTA, and current net par of $5 million and fully accreted net par at maturity of $5 million relate to the Commonwealth General Obligation Bonds.

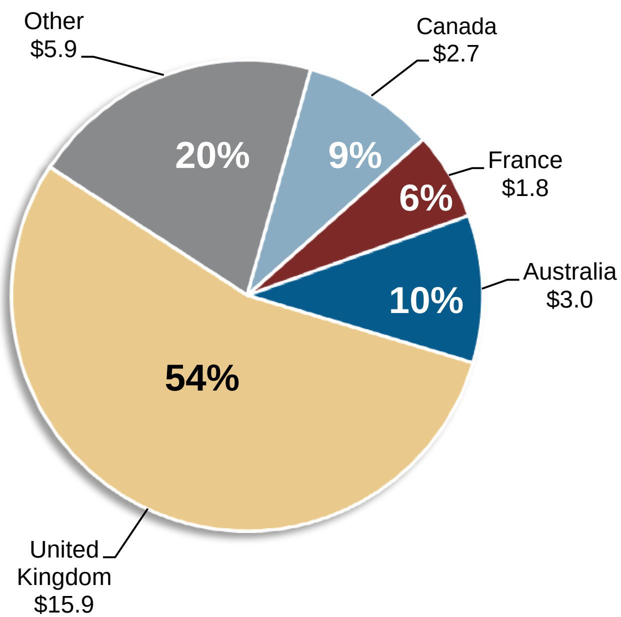
Consolidated Non-U.S. Exposure
Non-U.S. Public and Structured Finance

Non-U.S. Exposure
As of December 31, 2016
($ in billions)

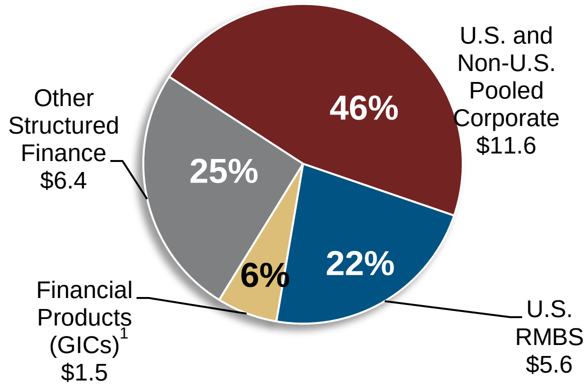


$29.5 billion, A- average rating

- **90% of non-U.S. exposure is Public Finance**
  - Direct sovereign debt is limited to Poland ($208 million outstanding)
- **10% of non-U.S. exposure is Structured Finance**
  - Approximately 50% of that is to Pooled Corporates
  - 87% of non-U.S. Pooled Corporates are rated A or higher

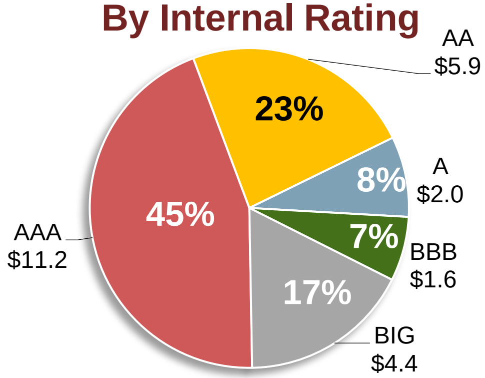
Structured Finance Exposures
Net Par Outstanding

By Type
As of December 31, 2016
($ in billions)



$25.1 billion, AA- average rating

By Internal Rating



- **We expect Assured Guaranty's global structured finance insured portfolio ($25.1 billion as of December 31, 2016) to amortize rapidly – 40% expected to amortize by the end of 2017 and 49% by the end of 2018**
  - $11.6 billion in global pooled corporate obligations expected to be reduced by 75% by year-end 2017 and by 82% by year-end 2018
  - $5.6 billion in U.S. RMBS expected to be reduced by 16% by year-end 2017 and by 30% by year-end 2018
- **Assured Guaranty's total structured finance exposure of $240.9 billion at December 31, 2007 has declined by $215.8 billion to $25.1 billion through December 31, 2016, a 90% reduction**

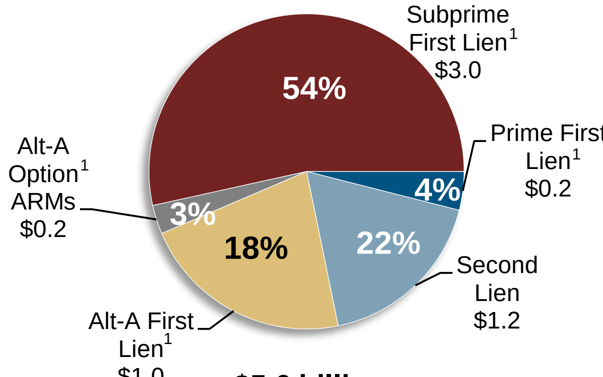
1. Assured Guaranty did not acquire Financial Security Assurance Holdings Ltd.'s financial products segment. Assured Guaranty and its subsidiaries are indemnified against exposure to such segment by Dexia. As of December 31, 2016, the aggregate accreted balance of the guaranteed investment contracts (GICs) was approximately $1.5 billion. As of the same date, with respect to the assets supporting the GIC business, the aggregate accreted principal balance was approximately $2.3 billion, the aggregate market value was approximately $2.1 billion and the aggregate market value after agreed reductions was approximately $1.5 billion. Cash and positive derivative value roughly offset the negative derivative values and other projected costs.

Consolidated U.S. RMBS

- **Our $5.6 billion U.S. RMBS portfolio is amortizing both on a dollar basis and as a percentage of the portfolio**
  - Total U.S. RMBS has declined from $29.2 billion at December 31, 2009 to $5.6 billion at December 31, 2016, a $23.6 billion or 81% reduction
  - As of December 31, 2016, U.S. RMBS exposure excludes $1.2 billion of net par as a result of loss mitigation strategies, including loss mitigation securities held in the investment portfolio
- **Our loss reserving methodology is driven by our assumptions on several factors:**
  - Liquidation rates
  - Conditional default rates
  - Conditional prepayment rates
  - Loss severity
- **We have significantly mitigated ultimate losses**
  - R&W putbacks, litigation and agreements
  - Wrapped bond purchases
  - Termination of insurance on BIG credits

U.S. RMBS by Exposure Type

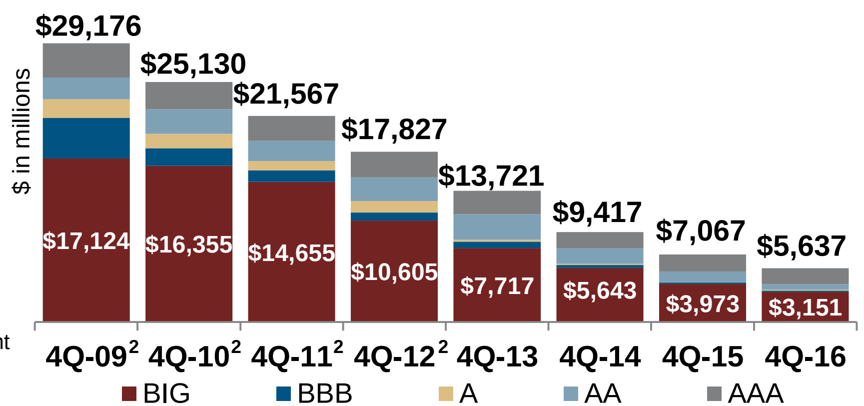
As of December 31, 2016
($ in billions)



$5.6 billion
(1.9% of total net par outstanding)

U.S. RMBS by Rating

Net Par Outstanding from December 31, 2009 to December 31, 2016



1. The Company has reclassified certain net par outstanding from below investment grade to investment grade due to collateralized reinsurance arrangements.
2. Gross of wrapped bond purchases made primarily for loss mitigation until 4Q-13

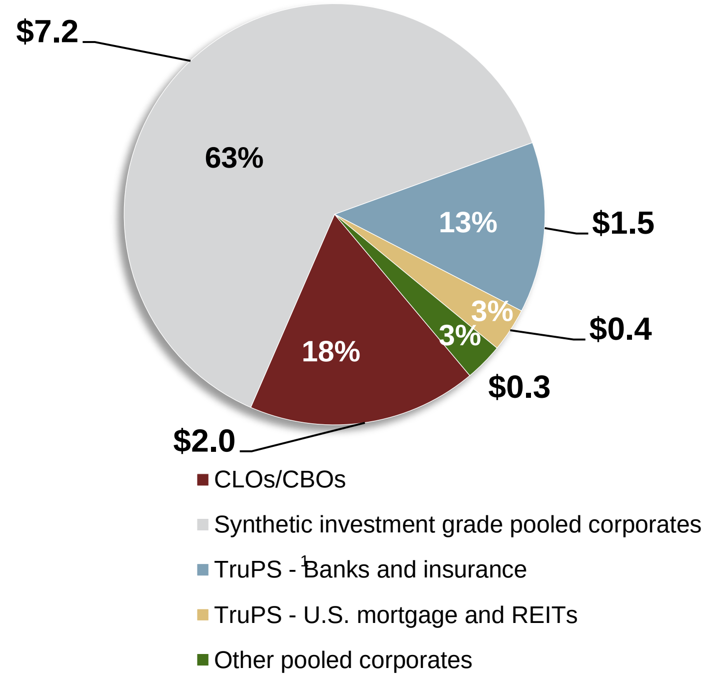
Direct Pooled Corporate Obligations Exposures

- **Most of our direct pooled corporate exposure is highly rated and well protected**
  - 77% rated AAA
  - Average credit enhancement of 28%

- **Within direct pooled corporate exposures, our $1.9 billion of Trust Preferred Securities (TruPS) CDO exposure is diversified by region and collateral type**
  - Includes more than 1,000 underlying issuers
  - All our exposure at the CDO level is to the most senior debt tranche
  - Weighted average rating of A-, weighted average adjusted current credit enhancement[2] of 47.4%

Direct Pooled Corporate Obligations By Asset Class[1]

As of December 31, 2016



$11.5 billion, AAA average rating

1. CLOs are collateralized loan obligations. CBOs are collateralized bond obligations.
2. Adjusted current CE is the amount of collateral par above senior liabilities (and shown as a percentage of total collateral) with adjustments made for restructured collateral (to reflect expected reduced cashflow) and for non-performing collateral; U.S. Mortgage & Real Estate TruPS CDOs also include an adjustment to reflect overhedging and outstanding hedge termination payments obligations. Some asset classes may not have subordinated tranches so they are excluded from the weighted averages.

Below Investment Grade Exposures

Net Par Outstanding by BIG Category[1]

- **As of December 31, 2016, approximately $4.5 billion (34%) of the aggregate BIG exposure was Category 1, which are transactions that show sufficient deterioration to make future losses possible but for which none are currently expected**

Financial Guaranty Insurance and Credit Derivatives Surveillance Categories

($ in millions)	December 31, 2016	December 31, 2015
Category 1		
U.S. public finance	$2,403	$4,765
Non-U.S. public finance	1,288	875

Appendix
Explanation of Non-GAAP Financial Measures

To reflect the key financial measures that management analyzes in evaluating the Company's operations and progress towards long-term goals, the Company discloses both financial measures determined in accordance with GAAP and financial measures not determined in accordance with GAAP (non-GAAP financial measures).

Financial measures identified as non-GAAP should not be considered substitutes for GAAP financial measures. The primary limitation of non-GAAP financial measures is the potential lack of comparability to financial measures of other companies, whose definitions of non-GAAP financial measures may differ from those of Assured Guaranty. Beginning in fourth quarter 2016, the Company's publicly disclosed non-GAAP financial measures are different from the financial measures used by management in its decision making process and in its calculation of certain components of management compensation (core financial measures). The Company had previously excluded the effect of consolidating FG VIEs (FG VIE consolidation) in its calculation of its non-GAAP financial measures of operating income, non-GAAP operating shareholders' equity and non-GAAP adjusted book value. Starting in fourth quarter 2016, based on the May 2016 C&DIs, the Company will no longer adjust for FG VIE consolidation. However, wherever possible, the Company has separately disclosed the effect of FG VIE consolidation that is included in its non-GAAP financial measures. The prior-year non-GAAP financial measures have been updated to reflect the revised calculation.

Management and the Board use core financial measures, which are based on non-GAAP financial measures adjusted to remove FG VIE consolidation, as well as GAAP financial measures and other factors, to evaluate the Company's results of operations, financial condition and progress towards long-term goals. The Company removes FG VIE consolidation in its core financial measures because, although GAAP requires the Company to consolidate certain VIEs that have issued debt obligations insured by the Company, the Company does not own such VIEs and its exposure is limited to its obligation under its financial guaranty insurance contract. By disclosing non-GAAP financial measures, along with FG VIE consolidation, the Company gives investors, analysts and financial news reporters access to information that management and the Board review internally. Assured Guaranty believes its presentation of non-GAAP financial measures and FG VIE consolidation provides information that is necessary for analysts to calculate their estimates of Assured Guaranty's financial results in their research reports on Assured Guaranty and for investors, analysts and the financial news media to evaluate Assured Guaranty's financial results.

Many investors, analysts and financial news reporters use non-GAAP operating shareholders' equity, adjusted for FG VIE consolidation, as the principal financial measure for valuing AGL's current share price or projected share price and also as the basis of their decision to recommend, buy or sell AGL's common shares. Many of the Company's fixed income investors also use this measure to evaluate the Company's capital adequacy.

Many investors, analysts and financial news reporters also use non-GAAP adjusted book value, adjusted for FG VIE consolidation, to evaluate AGL's share price and as the basis of their decision to recommend, buy or sell the AGL common shares. Operating income adjusted for the effect of FG VIE consolidation enables investors and analysts to evaluate the Company's financial results as compared with the consensus analyst estimates distributed publicly by financial databases.

The core financial measures that are used to help determine compensation are: (1) operating income, adjusted for FG VIE consolidation, (2) non-GAAP operating shareholders' equity, adjusted for FG VIE consolidation, (3) growth in non-GAAP adjusted book value per share, adjusted for FG VIE consolidation, and (4) PVP.

The following paragraphs and tables define each non-GAAP financial measure disclosed by the Company and describe why it is useful. A reconciliation of the non-GAAP financial measure and the most directly comparable GAAP financial measure is presented below.

Appendix
Explanation of Non-GAAP Financial Measures

Operating Income: Management believes that operating income is a useful measure because it clarifies the understanding of the underwriting results and financial conditions of the Company and presents the results of operations of the Company excluding the fair value adjustments on credit derivatives and CCS that are not expected to result in economic gain or loss, as well as other adjustments described below. Management adjusts operating income further by removing FG VIE consolidation to arrive at its core operating income measure. Operating income is defined as net income (loss) attributable to AGL, as reported under GAAP, adjusted for the following:

1) Elimination of realized gains (losses) on the Company's investments, except for gains and losses on securities classified as trading. The timing of realized gains and losses, which depends largely on market credit cycles, can vary considerably across periods. The timing of sales is largely subject to the Company's discretion and influenced by market opportunities, as well as the Company's tax and capital profile.

2) Elimination of non-credit-impairment unrealized fair value gains (losses) on credit derivatives, which is the amount of unrealized fair value gains (losses) in excess of the present value of the expected estimated economic credit losses, and non-economic payments. Such fair value adjustments are heavily affected by, and in part fluctuate with, changes in market interest rates, the Company's credit spreads, and other market factors and are not expected to result in an economic gain or loss.

3) Elimination of fair value gains (losses) on the Company's CCS. Such amounts are affected by changes in market interest rates, the Company's credit spreads, price indications on the Company's publicly traded debt, and other market factors and are not expected to result in an economic gain or loss.

4) Elimination of foreign exchange gains (losses) on remeasurement of net premium receivables and loss and LAE reserves. Long-dated receivables and loss and LAE reserves represent the present value of future contractual or expected cash flows. Therefore, the current period's foreign exchange remeasurement gains (losses) are not necessarily indicative of the total foreign exchange gains (losses) that the Company will ultimately recognize.

5) Elimination of the tax effects related to the above adjustments, which are determined by applying the statutory tax rate in each of the jurisdictions that generate these adjustments.

Non-GAAP Operating Shareholders' Equity: Management believes that non-GAAP operating shareholders' equity is a useful measure because it presents the equity of the Company excluding the fair value adjustments on investments, credit derivatives and CCS, that are not expected to result in economic gain or loss, along with other adjustments described below. Management adjusts non-GAAP operating shareholders' equity further by removing FG VIE consolidation to arrive at its core operating shareholders' equity and core adjusted book value.

Non-GAAP operating shareholders' equity is the basis of the calculation of non-GAAP adjusted book value (see below). Non-GAAP operating shareholders' equity is defined as shareholders' equity attributable to AGL, as reported under GAAP, adjusted for the following:

1) Elimination of non-credit-impairment unrealized fair value gains (losses) on credit derivatives, which is the amount of unrealized fair value gains (losses) in excess of the present value of the expected estimated economic credit losses, and non-economic payments. Such fair value adjustments are heavily affected by, and in part fluctuate with, changes in market interest rates, credit spreads and other market factors and are not expected to result in an economic gain or loss.

2) Elimination of fair value gains (losses) on the Company's CCS. Such amounts are affected by changes in market interest rates, the Company's credit spreads, price indications on the Company's publicly traded debt, and other market factors and are not expected to result in an economic gain or loss.

3) Elimination of unrealized gains (losses) on the Company's investments that are recorded as a component of accumulated other comprehensive income (AOCI) (excluding foreign exchange remeasurement). The AOCI component of the fair value adjustment on the investment portfolio is not deemed economic because the Company generally holds these investments to maturity and therefore should not recognize an economic gain or loss.

4) Elimination of the tax asset or liability related to the above adjustments, which are determined by applying the statutory tax rate in each of the jurisdictions that generate these adjustments.

Appendix

Explanation of Non-GAAP Financial Measures (Cont'd)

Non-GAAP Adjusted Book Value: Management uses non-GAAP adjusted book value, adjusted for FG VIE consolidation, to measure the intrinsic value of the Company, excluding franchise value. Growth in non-GAAP adjusted book value per share adjusted for FG VIE consolidation (core adjusted book value) is one of the key financial measures used in determining the amount of certain long-term compensation elements to management and employees and used by rating agencies and investors. Management believes that this is a useful measure because it enables an evaluation of the net present value of the Company's in-force premiums and revenues net of expected losses. Non-GAAP adjusted book value is non-GAAP operating shareholders' equity, as defined above, further adjusted for the following:

1) Elimination of deferred acquisition costs, net. These amounts represent net deferred expenses that have already been paid or accrued and will be expensed in future accounting periods.

2) Addition of the net present value of estimated net future credit derivative revenue. See below.

3) Addition of the deferred premium revenue on financial guaranty contracts in excess of expected loss to be expensed, net of reinsurance. This amount represents the expected future net earned premiums, net of expected losses to be expensed, which are not reflected in GAAP equity.

4) Elimination of the tax asset or liability related to the above adjustments, which are determined by applying the statutory tax rate in each of the jurisdictions that generate these adjustments.

The premiums and revenues included in non-GAAP adjusted book value will be earned in future periods, but actual earnings may differ materially from the estimated amounts used in determining current non-GAAP adjusted book value due to changes in foreign exchange rates, prepayment speeds, terminations, credit defaults and other factors.

Operating Return on Equity (Operating ROE): Operating ROE represents operating income for a specified period divided by the average of operating shareholders' equity at the beginning and the end of that period. Management believes that operating ROE is a useful measure to evaluate the Company's return on invested capital. Many investors, analysts and members of the financial news media use operating ROE, adjusted for FG VIE consolidation, to evaluate AGL's share price and as the basis of their decision to recommend, buy or sell the AGL common shares. Quarterly and year-to-date operating ROE are calculated on an annualized basis. Operating ROE, adjusted for FG VIE consolidation, is one of the key management financial measures used in determining the amount of certain long-term compensation to management and employees and used by rating agencies and investors.

Net Present Value of Estimated Net Future Credit Derivative Revenue: Management believes that this amount is a useful measure because it enables an evaluation of the value of future estimated credit derivative revenue. There is no corresponding GAAP financial measure. This amount represents the present value of estimated future revenue from the Company's credit derivative in-force book of business, net of reinsurance, ceding commissions and premium taxes, for contracts without expected economic losses, and is discounted at 6%. Estimated net future credit derivative revenue may change from period to period due to changes in foreign exchange rates, prepayment speeds, terminations, credit defaults or other factors that affect par outstanding or the ultimate maturity of an obligation.

PVP or Present Value of New Business Production: Management believes that PVP is a useful measure because it enables the evaluation of the value of new business production for the Company by taking into account the value of estimated future installment premiums on all new contracts underwritten in a reporting period as well as premium supplements and additional installment premium on existing contracts as to which the issuer has the right to call the insured obligation but has not exercised such right, whether in insurance or credit derivative contract form, which GAAP gross written premiums and the net credit derivative premiums received and receivable portion of net realized gains and other settlements on credit derivatives (Credit Derivative Realized Gains (Losses)) do not adequately measure. PVP in respect of financial guaranty contracts written in a specified period is defined as gross upfront and installment premiums received and the present value of gross estimated future installment premiums, discounted, in each case, at 6%. For purposes of the PVP calculation, management discounts estimated future installment premiums on insurance contracts at 6%, while under GAAP, these amounts are discounted at a risk free rate. Additionally, under GAAP, management records future installment premiums on financial guaranty insurance contracts covering non-homogeneous pools of assets based on the contractual term of the transaction, whereas for PVP purposes, management records an estimate of the future installment premiums the Company expects to receive, which may be based upon a shorter period of time than the contractual term of the transaction. Actual future net earned or written premiums and Credit Derivative Realized Gains (Losses) may differ from PVP due to factors including, but not limited to, changes in foreign exchange rates, prepayment speeds, terminations, credit defaults, or other factors that affect par outstanding or the ultimate maturity of an obligation.

Appendix
