

You don't prove your stability by weathering a few storms. But by weathering decades.

Every bond insurer plans to maintain its financial strength. But only Assured Guaranty has consistently proven its strength over more than three decades. We continued to guarantee bonds throughout the Great Recession, and today we have a similar amount of claims-paying resources and far less insured risk. There is no other bond insurance group with:

1

\$11 billion in group claims-paying resources.*

2

\$3.5 billion of net deferred premium revenue.

3

\$10 billion of investable assets that provide ample liquidity to support our obligations, in addition to earning hundreds of millions of dollars every year.

4

A proven history of paying principal and interest in full when bonds we insure default.
