

# Retirement planning? Muni bond insurance should be par for the course.

Whether your goal is to build your nest egg or to make sure you have the cash flow you need for retirement, here's something to consider: Municipal bonds insured by Assured Guaranty are among the safest investments you can make. That's because the bonds we insure are 100% guaranteed to make their scheduled payments in full and on time.

**1**

Our financial strength has continuously protected investors from economic, financial and political problems for over four decades.

**2**

We have \$10 billion in claims-paying resources across our group.\*  
Rating agencies report that we have more capital than we would need even under their severely stressed economic scenarios.

**3**

Our group's investment portfolio, consisting primarily of highly rated fixed income securities, provides ample liquidity to support our obligations and has been earning hundreds of millions of dollars every year.

**4**

We've protected investors' principal and interest payments – and insulated them from settlement negotiations and litigation – in distress situations like those of Detroit and Puerto Rico.
