STATEMENT AS OF JUNE 30, 2023 OF ASSURED GUARANTY CORP.

1. Summary of Significant Accounting Policies and Going Concern

- A. Accounting Practices
- The financial statements of Assured Guaranty Corp. (the “Company” or “AGC”) are presented on the basis of accounting practices prescribed or permitted by the Maryland Insurance Administration ("MIA"). The MIA recognizes only statutory accounting practices prescribed or permitted by the state of Maryland for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the Maryland Insurance Law. The National Association of Insurance Commissioners’ (“NAIC”) *Accounting Practices and Procedures Manual* (“NAIC SAP”) has been adopted as a component of prescribed or permitted practices by the state of Maryland. The Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices.

A reconciliation of the Company’s net income and capital and surplus between practices prescribed and permitted by the Maryland Insurance Commissioner and NAIC SAP is shown below:

- C. Accounting Policies
- There has been no significant change since the 2022 Annual Statement.
- D. Going Concern
- There are currently no conditions or events to cause management to have any substantial doubt about the Company's ability to continue as a going concern.

2. Accounting Changes and Corrections of Errors

There has been no change since the 2022 Annual Statement.

3. Business Combinations and Goodwill

- A. Statutory Purchase Method. There has been no change since the 2022 Annual Statement.
- B. Statutory Merger. There was no statutory merger in the first six months of 2023.
- C. Impairment Loss. There has been no change since the 2022 Annual Statement.

4. Discontinued Operations

There has been no change since the 2022 Annual Statement.

5. Investments

- A. Mortgage Loans, including Mezzanine Real Estate Loans - The Company did not hold investments in mortgage loans at June 30, 2023.
- B. Debt Restructuring - The Company has no investments in restructured debt in which the Company is a creditor at June 30, 2023.
- C. Reverse Mortgages - The Company did not hold reverse mortgages as investments at June 30, 2023.
- D. Loan-Backed and Structured Securities
- Prepayment assumptions for loan backed and structured securities were obtained from publicly available sources and internal models.
  - The Company had no loan-backed or structured securities with current year other-than-temporary impairments ("OTTI") due to either the intent to sell the securities or the inability or lack of intent to retain for the time sufficient to recover the amortized cost basis.
  - The following table summarizes other-than-temporary-impairments recorded for loan-backed securities which the Company still owns at the end of the respective quarters recorded, based on the fact that the present value of projected cash flows expected to be collected was less than the amortized cost of the securities:

STATEMENT AS OF JUNE 30, 2023 OF ASSURED GUARANTY CORP.

CUSIP	Amortized Cost Before Other-Than-Temporary Impairment	Present Value of Projected Cash Flows	Other-Than-Temporary Impairment	Amortized Cost After Other-Than-Temporary Impairment	Fair Value @ Time of OTTI	Date of Financial Statement Where Reported

			\$ 184,526			

Additionally there were three structured securities with an NAIC rating of 1 that were written down to market value because the market value was higher than present value. The amount that was written down in the first six months of 2023 was \$22 thousand.

The Company also had five structured securities whose carrying value was written down to market value as it had an NAIC designation of 3 through 6. The amount that was written down in the first six months of 2023 was approximately \$33.3 million.

The total amount written down for the first six month of 2023 for loan-backed and structured securities was \$33.5 million.

4. The following summarizes gross unrealized investment losses on loan-backed and structured securities for which OTTI has not been recognized as a realized loss by the length of time that securities have continuously been in an unrealized loss position.

- a. The aggregate amount of unrealized losses:

	Less than 12 months	12 Months or More
Residential mortgage-backed securities	\$ (237,090)	\$ (1,203,837)
Commercial mortgage-backed securities	(142,417)	(1,666,364)
Other loan backed & structured securities	(56,095)	(1,903,519)
Total	1. \$ (435,602)	2. \$ (4,773,720)

- b. The aggregate related fair value of securities with unrealized losses:

	Less than 12 months	12 Months or More
Residential mortgage-backed securities	\$ 6,991,001	\$ 5,983,453
Commercial mortgage-backed securities	2,605,308	23,150,354
Other loan backed & structured securities	1,558,749	65,405,413
Total	1. \$ 11,155,058	2. \$ 94,539,220

5. All loan-backed and structured securities in an unrealized loss position were reviewed to determine whether an other-than-temporary impairment should be recognized. For those securities in an unrealized loss position at June 30, 2023, the Company has not made a decision to sell any such securities and does not intend to sell such securities. The Company has evaluated its cash flow requirements and believes that its liquidity is adequate and it will not be required to sell these securities before recovery of their cost basis. The Company has determined that the unrealized losses recorded were not related to credit quality.

- E. Dollar Repurchase Agreements and/or Securities Lending Transactions - The Company did not enter into dollar repurchase agreements or securities lending transactions at June 30, 2023.
- F. Repurchase Agreements Transactions Accounted for as Secured Borrowing - The Company did not enter into repurchase agreements accounted for as secured borrowings at June 30, 2023.

### 6. **Joint Ventures, Partnerships and Limited Liability Companies**

As of June 30, 2023, the book value of the Company's investments in limited partnerships and limited liability companies was \$222.4 million. There were unrealized gains of \$10.8 million recognized in surplus during the six months ended June 30, 2023.

### 7. **Investment Income**

- A. Accrued Investment Income  
Accrued investment income was \$22,083,782 and \$20,244,892 as of June 30, 2023 and December 31, 2022, respectively. There are no amounts due and accrued over 90 days included in these balances.
- B. The Company does not admit investment income due and accrued if amounts are over 90 days past due.

### 8. **Derivative Instruments**

There has been no change since the 2022 Annual Statement.

### 9. **Income Taxes**

There has been no significant change since the 2022 Annual Statement.

### 10. **Information Concerning Parent, Subsidiaries and Affiliates**

A, C through O. There has been no significant change since the 2022 Annual Statement.

#### B. Transactions with Affiliates

The Company engaged in the following non-insurance transactions (generally representing greater than 0.5% of admitted assets) with affiliates:

1. The Company made dividend payments of \$43.6 million in the first six months of 2023 to Assured Guaranty US Holdings Inc. (the "Parent" or "AGUS").
2. The Company is a subsidiary of Assured Guaranty Ltd. (together with its subsidiaries, "Assured Guaranty"). On July 1, 2023, Assured Guaranty contributed to Sound Point Capital Management, LP ("Sound Point") most of its asset management business, other than that conducted by Assured Healthcare Partners LLC, as contemplated by the transaction agreement entered into with Sound Point on April 5, 2023 ("Transaction Agreement"). In addition, in accordance with the terms of a letter agreement ("Letter Agreement"), effective July 1, 2023 AGC and Assured Guaranty Municipal Corp. ("AGM" and, together with AGC, the "U.S. Insurance Subsidiaries") (i) engaged Sound Point as their sole alternative credit manager, and (ii) transitioned to Sound Point the management of certain existing alternative investments and related commitments. The Letter Agreement also provides that, in the first two years of Sound Point's engagement, the U.S. Insurance Subsidiaries would, subject to regulatory approval, make new investments in funds, other vehicles and separately managed accounts managed by Sound Point which, when aggregated with the alternative investments and commitments transitioned from Assured Investment Management LLC and its investment management affiliates (together "AssuredIM"), will total \$1 billion. Assured Guaranty received, subject to certain potential post-closing adjustments, common interests in Sound Point representing a 30% participation percentage in Sound Point, and certain other interests in related Sound Point entities (the transactions contemplated under the Transaction Agreement and the Letter Agreement, the "Sound Point Transaction").

Upon the closing of the Sound Point Transaction, Assured Guaranty's investments in Sound Point will be subject to the risks of Sound Point's business.

- Sound Point's business operates in highly competitive markets. Sound Point competes with many other firms in every aspect of the asset management industry, including raising funds, seeking investments, and hiring and retaining professionals. Sound Point's ability to increase and retain assets under management is directly related to the performance of the assets it manages as measured against market averages and the performance of its competitors. Some of Sound Point's competitors may have a lower cost of funds and access to funding and other resources that are not available to Sound Point. In addition, some of Sound Point's competitors may have higher risk tolerances or different risk assessments, which could allow them to consider a wider variety of investments and establish more relationships than Sound Point does. Furthermore, Sound Point may lose investment opportunities if it does not match its competitors' pricing, terms and structure. The loss of such investment opportunities may limit Sound Point's ability to grow or cause it to have to shrink the size of its portfolio, which could decrease its earnings. If Sound Point matches its competitors' pricing, terms and structure, it may experience decreased earnings and increased risk of investment losses.
- Sound Point is dependent on certain key personnel, including Sound Point's Managing Partner and Chief Investment Officer, and its future success depends on their continued service. The departure of any of Sound Point's key personnel for any reason could have a material adverse effect on Sound Point's business, financial

STATEMENT AS OF JUNE 30, 2023 OF ASSURED GUARANTY CORP.

condition or results of operations and, consequently, AGC’s investments in Sound Point funds, other vehicles and separately managed accounts.

- Sound Point operates in a highly regulated industry and, as a registered investment adviser, is subject to the provisions of the Investment Advisers Act of 1940, as amended. Sound Point is, from time to time, subject to formal and informal examinations, investigations, inquiries, audits and reviews from numerous regulatory authorities both in response to issues and questions raised in such examinations or investigations and in connection with the changing priorities of the applicable regulatory authorities across the market in general. As a result, there can be no assurance that Sound Point will not become subject to possible enforcement actions. Sound Point and its principals and employees could also be named as defendants in, or otherwise become involved in, a regulatory action or litigation. Any such regulatory actions or litigation could be disruptive, time-consuming, expensive and lead to negative financial and reputational consequences that have a material adverse effect on Sound Point’s business, financial condition or results of operations and, consequently, AGC’s investments in Sound Point funds, other vehicles and separately managed accounts.

In July 2023, Assured Guaranty sold all of its equity interests in Assured Healthcare Partners LLC ("AHP"), which manages healthcare funds, to an entity owned and controlled by the managing partner of AHP ("AHP Transaction"). In connection with the AHP Transaction, Assured Guaranty agreed to remain a strategic investor in certain AHP investment vehicles, is retaining certain carried interest in AHP entities and received other consideration.

11. **Debt**

There has been no change since the 2022 Annual Statement.

12. **Retirement Plans, Deferred Compensation, Post-employment Benefits and Compensated Absences and Other Post-retirement Benefit Plans**

There has been no significant change since the 2022 Annual Statement.

13. **Capital and Surplus, Dividend Restrictions and Quasi-Reorganizations**

A through C, F through I, K through M. There has been no significant change since the 2022 Annual Statement.

D. The Company paid dividends to AGUS of \$19.6 million on March 24, 2023 and \$24.0 million on June 28, 2023.

E. Under Maryland's insurance law, AGC may, with prior notice to the Maryland Insurance Commissioner, pay an ordinary dividend that, together with all dividends paid in the prior 12 months, does not exceed the lesser of 10% of its policyholders' surplus (as of the prior December 31) or 100% of its adjusted net investment income during that period. The maximum amount available during 2023 for AGC to distribute as ordinary dividends is approximately \$102 million. Of such \$102 million, \$43.6 million was distributed by AGC to AGUS in the first six months of 2023 and none is available for distribution in the third quarter of 2023.

J. The portion of unassigned funds (surplus) represented by cumulative unrealized gains is \$32,178,534.

14. **Liabilities, Contingencies and Assessments**

A through F. There has been no change since the 2022 Annual Statement.

G. All Other Contingencies:

*Uncollected Premiums*

As of June 30, 2023, the Company had uncollected premiums of \$21,609,696. Uncollected premiums more than 90 days past due were \$6,245,963.

*Legal Proceedings*

Lawsuits arise in the ordinary course of the Company’s business. It is the opinion of the Company’s management, based upon the information available, that the expected outcome of litigation against the Company, individually or in the aggregate, will not have a material adverse effect on the Company’s financial position, although an adverse resolution of litigation against the Company in a fiscal quarter or year could have a material adverse effect on the Company’s results of operations or liquidity in a particular quarter or year.

In addition, in the ordinary course of its business, the Company is involved in litigation with third parties to recover insurance losses paid in prior periods or prevent or reduce losses in the future. For example, the Company is involved in a number of legal actions in the United States District Court of the District of Puerto Rico (“Federal District Court of Puerto Rico”) to enforce or defend its rights with respect to the obligations it insures of Puerto Rico and various of its related authorities and public corporations. The impact, if any, of these and other proceedings on the amount of recoveries the Company receives and losses it pays in the future is uncertain, and the impact of any one or more of these proceedings during any quarter or year could be material to the Company’s results of operations in that particular quarter or year. In the first quarter of 2023, the Company reduced its previously recorded accrual of \$20 million (\$17 million net of ceded reinsurance) to zero in connection with developments in litigation.

The Company also receives subpoenas and interrogatories from regulators from time to time.

**Litigation**

On November 28, 2011, Lehman Brothers International (Europe) (in administration) (LBIE) sued AG Financial Products Inc. (AGFP), an affiliate of AGC, which, in the past, had provided credit protection to counterparties under CDS. AGC acts as the credit support provider of AGFP under these CDS. LBIE’s complaint, which was filed in the Supreme Court of the State of New York (the Court), asserted a claim for breach of the implied covenant of good faith and fair dealing based on AGFP's termination in December 2008 of nine credit derivative transactions between LBIE and AGFP and asserted claims for breach of contract and breach of the implied covenant of good faith and fair dealing based on AGFP’s termination in July

## STATEMENT AS OF JUNE 30, 2023 OF ASSURED GUARANTY CORP.

2009 of 28 other credit derivative transactions between LBIE and AGFP and AGFP's calculation of the termination payment in connection with those 28 other credit derivative transactions. Following defaults by LBIE, AGFP had terminated the transactions in question in compliance with the agreement between AGFP and LBIE, and properly calculated that LBIE owes AGFP approximately \$4 million for the claims which were dismissed (as described below) and approximately \$21 million in connection with the termination of the other credit derivative transactions, whereas LBIE asserted in the complaint that AGFP owes LBIE a termination payment of approximately \$1.4 billion. On March 15, 2013, the Court granted AGFP's motion to dismiss in respect of the count relating to the nine credit derivative transactions and narrowed LBIE's claim with respect to the 28 other credit derivative transactions. Following the bench trial, on March 8, 2023, the Court rendered its decision and found in favor of AGFP. On May 17, 2023, the Court issued an order holding that AGFP is entitled to interest on its damages award at a rate of 8% simple and directing the clerk to enter judgment in favor of AGFP. On June 30, 2023, the clerk entered judgment in favor of AGFP in the amount of approximately \$54 million for damages and prejudgment interest on AGFP's counterclaims and, on July 10, 2023, LBIE filed a notice of appeal of that judgment. On July 1, 2023, AGFP moved the Court to award it approximately \$58 million for attorneys' fees and expenses AGFP incurred through March 2023. The Company has not accrued for either of these amounts in its financial statements.

### Puerto Rico Litigation

Currently, there are numerous legal actions relating to the default by the Commonwealth of Puerto Rico ("Puerto Rico" or the "Commonwealth") and certain of its instrumentalities on debt service payments, and related matters, and the Company is a party to a number of them. The Company has taken legal action, and may take additional legal action in the future, to enforce its rights with respect to Puerto Rico obligations which the Company insures. In addition, the Commonwealth, the financial oversight and management board ("FOMB") and others have taken legal action naming the Company as party.

A number of legal actions involving the Company and relating to the Commonwealth, the Puerto Rico Convention Center District Authority ("PRCCDA") and the Puerto Rico Infrastructure Financing Authority ("PRIFA"), as well as claims related to the clawback of certain excise taxes and revenues pledged to secure bonds issued by the Puerto Rico Highways and Transportation Authority ("PRHTA"), were resolved on March 15, 2022, and all remaining legal actions involving the Company and relating to PRHTA were resolved on December 6, 2022, which together comprised the consummation of the 2022 Puerto Rico Resolutions (see Note 21.F.4). Except for one proceeding related to the Puerto Rico Electric Power Authority ("PREPA"), all proceedings involving the Company and relating to the default by the Commonwealth or its instrumentalities remain stayed pending the Federal District Court of Puerto Rico's determination on plans of adjustment or other proceedings.

The following Puerto Rico proceeding in which the Company is involved is no longer stayed:

- On July 1, 2019, the FOMB initiated an adversary proceeding against U.S. Bank National Association, as trustee for PREPA's bonds, objecting to and challenging the validity, enforceability, and extent of prepetition security interests securing those bonds and seeking other relief. On September 30, 2022, the FOMB filed an amended complaint against the trustee (i) objecting to and challenging the validity, enforceability, and extent of prepetition security interests securing PREPA's bonds and (ii) arguing that PREPA bondholders' recourse was limited to certain deposit accounts held by the trustee. On October 7, 2022, the court approved a stipulation permitting Assured Guaranty Municipal Corp. ("AGM") and AGC to intervene as defendants. Summary judgment motions were filed by plaintiffs and defendants on October 24, 2022. As noted above, on March 22, 2023, the Federal District Court of Puerto Rico granted in part and denied in part each party's cross-motions for summary judgment. The Federal District Court of Puerto Rico found that the PREPA bondholders had perfected liens only in revenues that had been deposited in the sinking fund established under the PREPA trust agreement and related funds over which the bond trustee had control. The Federal District Court of Puerto Rico also held that the PREPA bondholders do have recourse under the trust agreement in the form of an unsecured net revenue claim, but declined to value the unsecured net revenue claim. On April 13, 2023, the court issued an order proposing procedures to estimate the value of the unsecured net revenue claim, arising from the Trustee's ability to exercise remedies to obtain specific performance of PREPA's covenants to fund the sinking fund, which must be done under the Bankruptcy Code for purposes of allowance. The order also set a discovery and expert report schedule, and directed the parties to engage in good faith mediation. A claim estimation hearing was held June 6-8, 2023, and in a June 26, 2023 opinion, the court estimated the PREPA bondholders' allowed unsecured net revenue claim to be \$2.4 billion, which the court calculated by largely adopting the conclusions in the FOMB's expert report. On May 3, 2023, the Federal District Court of Puerto Rico denied PREPA bondholders' request to certify their interlocutory appeal of the finding that the PREPA bondholders had perfected liens only in revenues that had been deposited in the sinking fund established under the PREPA trust agreement and related funds over which the bond trustee had control. On May 15, 2023, the FOMB filed its motion to dismiss the Trustee's and bondholders' counterclaims. Unless mediation or a confirmed plan of adjustment leads to an acceptable outcome, AGM and AGC expect to appeal portions of the court's decision, including the lien scope ruling and the result of the claim estimation proceeding, upon final adjudication by the court.

The following Puerto Rico proceedings in which the Company is involved remain stayed:

- On June 26, 2017, AGM and AGC filed a complaint in the Federal District Court of Puerto Rico to compel the FOMB to certify the PREPA RSA for implementation under Title VI of the Puerto Rico Oversight, Management, and Economic Stability Act ("PROMESA"). On July 21, 2017, considering its PREPA Title III petition on July 2, 2017, the FOMB filed a notice of stay under PROMESA.
- On July 18, 2017, AGM and AGC filed a motion for relief in the Federal District Court of Puerto Rico from the automatic stay filed in the PREPA Title III Bankruptcy proceeding. The court denied the motion on September 14, 2017, but on August 8, 2018, the United States Court of Appeals for the First Circuit vacated and remanded the court's decision. On October 3, 2018, AGM and AGC, together with other bond insurers, filed a motion with the court to lift the automatic stay to commence an action against PREPA for the appointment of a receiver. Following termination of mediation without a resolution and the filing of a motion to dismiss PREPA's Title III case or to lift the automatic stay to allow for the appointment of a receiver, the court effectively stayed this matter until termination of the plan confirmation process.

STATEMENT AS OF JUNE 30, 2023 OF ASSURED GUARANTY CORP.

- On May 20, 2019, the FOMB and the Official Committee of Unsecured Creditors filed an adversary complaint in the Federal District Court of Puerto Rico challenging the validity, enforceability, and extent of security interests in PRHTA revenues. Relatedly, on January 16, 2020, the FOMB, on behalf of the PRHTA, brought an adversary proceeding in the Federal District Court of Puerto Rico against AGM and AGC and other insurers of PRHTA bonds, objecting to the bond insurers claims in the PRHTA Title III proceedings and seeking to disallow such claims. These matters are currently stayed. On October 12, 2022, the court entered an order and judgment confirming the amended plan of adjustment for PRHTA filed by the FOMB with the court on September 6, 2022 (“HTA Confirmation Order”), and which provides that these adversary proceeding must be dismissed with prejudice within five business days of the HTA Confirmation Order becoming a final order, which should occur after all appeals of the HTA Confirmation Order have been resolved.
- On September 30, 2019, certain parties that either had advanced funds to PREPA for the purchase of fuel or had succeeded to such claims (“Fuel Line Lenders”) filed an amended adversary complaint against the FOMB and other parties, including AGC and AGM, seeking subordination of PREPA bondholder claims to Fuel Line Lenders’ claims. On November 12, 2019, AGC and AGM filed a motion to dismiss the amended adversary complaint. On September 29, 2022, the court entered an order terminating the motion to dismiss without prejudice, and indicating that the issues in the adversary proceeding will only be addressed, if necessary, after issues related to security and recourse of the PREPA bonds have been resolved or, if necessary, in connection with the confirmation of a plan of adjustment for PREPA.
- On October 30, 2019, the retirement system for PREPA employees (“SREAEE”) filed an amended adversary complaint in the Federal District Court of Puerto Rico against the FOMB and other parties, seeking subordination of PREPA bondholder claims to SREAEE claims. On November 7, 2019, the court granted a motion to intervene by AGC and AGM. On November 13, 2019, AGC and AGM filed a motion to dismiss the amended adversary complaint. On September 29, 2022, the court entered an order terminating the motion to dismiss without prejudice, and indicating that the issues in the adversary proceeding will only be addressed, if necessary, after issues related to security and recourse of the PREPA bonds have been resolved or, if necessary, in connection with the confirmation of a plan of adjustment for PREPA.

20. Fair Value

- A. Inputs Used for Assets and Liabilities Measured and Reported at Fair Value
  - 1. Items Measured and Reported at Fair Value by Levels 1, 2 and 3

The categorization within the fair value hierarchy is determined based on whether the inputs to valuation techniques used to measure fair value are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect Company estimates of market assumptions. The fair value hierarchy prioritizes model inputs into three broad levels as follows, with Level 1 being the highest and Level 3 the lowest. An asset's or liability's categorization is based on the lowest level of significant input to its valuation.

- Level 1 – Quoted prices for identical instruments in active markets. The Company generally defines an active market as a market in which trading occurs at significant volumes. Active markets generally are more liquid and have a lower bid-ask spread than an inactive market.
- Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and observable inputs other than quoted prices, such as interest rates or yield curves and other inputs derived from or corroborated by observable market inputs.
- Level 3 – Model derived valuations in which one or more significant inputs or significant value drivers are unobservable. Financial instruments are considered Level 3 when their values are determined using pricing models, discounted cash flow methodologies or similar techniques and at least one significant model assumption or input is unobservable. Level 3 financial instruments also include those for which the determination of fair value requires significant management judgment or estimation.

The following fair value hierarchy table presents information about the Company's asset measured at fair value as of June 30, 2023.

STATEMENT AS OF JUNE 30, 2023 OF ASSURED GUARANTY CORP.

Description for each class of asset or liability	Level 1	Level 2	Level 3	Net Asset Value	TOTAL
a. Assets at fair value					
Industrial & miscellaneous bonds	\$ —	\$ —	\$ 256,707,225	\$ —	\$ 256,707,225
U.S. special revenue	—	10	161,542	—	161,552
Money market mutual funds	—	190,341,007	—	—	190,341,007
Total assets at fair value	\$ —	\$ 190,341,017	\$ 256,868,767	\$ —	\$ 447,209,784

Bonds

Bonds with an NAIC designation of 1 and 2 are carried at amortized cost while bonds with an NAIC designation of 3 through 6 are carried at the lower of cost or fair value.

The fair value of bonds in the investment portfolio is generally based on prices received from third-party pricing services or alternative pricing sources with reasonable levels of price transparency. The pricing services prepare estimates of fair value using their pricing models, which take into account: benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, reference data, industry and economic events, and sector groupings. Additional valuation factors that can be taken into account are nominal spreads and liquidity adjustments. The pricing services evaluate each asset class based on relevant market and credit information, perceived market movements, and sector news.

Benchmark yields have in many cases taken priority over reported trades for securities that trade less frequently or those that are distressed trades, and therefore may not be indicative of the market. The extent of the use of each input is dependent on the asset class and the market conditions. The valuation of fixed-maturity investments is more subjective when markets are less liquid due to the lack of market based inputs.

Stocks

The Company’s stocks are primarily comprised of investments in subsidiaries. Investments in subsidiaries are carried on the equity basis, to the extent admissible.

Cash and Short-Term Investments

Cash equivalents and short-term investments, with the exception of money market mutual funds, are stated at amortized cost and have maturities within one year of purchase date. Money market mutual funds are accounted for at fair value, which approximates amortized cost.

Other Invested Assets

The carrying amounts reported in the statement of admitted assets, liabilities and surplus for these instruments are at amortized cost. Investments in limited liability company interests are carried on the equity basis, to the extent admissible.

2. Rollforward of Level 3 Items
- For fair value measurements categorized within Level 3 of the fair value hierarchy, the following table is a reconciliation from the opening balance to the closing balances during the quarter:

Description:	Beg. Balance at April 1, 2023	Transfers Into Level 3	Transfers Out of Level 3	Total Gains & Losses incl in Net Income	Total Gains & Loss incl in Surplus	Purchase	Issuance	Sales	Settle-ment	Ending Balance at June 30, 2023
Bonds - Industrial & Miscellaneous	\$309,177,000	\$ —	\$ 33,501,600	\$ (18,968,175)	\$ —	\$ —	\$ —	\$ —	\$ —	\$256,707,225
Bonds - Special revenue	2,467,112	161,542	2,467,112	—	—	—	—	—	—	161,542
TOTAL	\$311,644,112	\$ 161,542	\$ 35,968,712	\$ (18,968,175)	\$ —	\$ —	\$ —	\$ —	\$ —	\$256,868,767

3. Policy on Transfers Into and Out of Level 3
- Transfers in and out of Level 3 are recognized at the end of the quarter when the Company evaluates whether securities with unobservable inputs need to be carried at fair value.
- During the quarter ended June 30, 2023, one special revenue bond was transferred into Level 3 of the fair value hierarchy because it's fair value decreased below amortized cost during the period and had an NAIC designation of 3 through 6.

• During the quarter ended June 30, 2023, one special revenue bond and one industrial and miscellaneous bond were transferred out of the Level 3 fair value hierarchy as the fair value increased over carrying value during the period.
4. Inputs and Techniques Used for Level 3 Fair Values
- All Level 3 securities were priced with the assistance of independent third parties. The pricing is based on a discounted cash flow approach using the third party’s proprietary pricing models. The models use inputs such as projected prepayment speeds; severity assumptions; recovery lag assumptions; estimated default rates (determined on the basis of an analysis of collateral attributes, historical collateral performance, borrower profiles and other features relevant to the evaluation of collateral credit quality); home price appreciation/depreciation rates based on macroeconomic forecasts and recent trading activity. The yield used to discount the projected cash flows is determined by reviewing various attributes of the security including collateral type, weighted average life, sensitivity to losses, vintage, and convexity, in conjunction with market data on comparable securities. Significant changes to any of these inputs could have materially changed the expected timing of cash flows within these securities which is a significant factor in determining the fair value of the securities.
5. Derivative Fair Values
- The Company does not own derivatives at June 30, 2023.

STATEMENT AS OF JUNE 30, 2023 OF ASSURED GUARANTY CORP.

B. Other Fair Value Disclosures

The fair value of the Company’s financial guaranty insurance contracts accounted for as insurance was approximately \$455.0 million at June 30, 2023 and was based on management’s estimate of what a similarly rated financial guaranty insurance company would demand to acquire the Company’s in-force book of financial guaranty insurance business. It is based on a variety of factors that may include pricing assumptions management has observed for portfolio transfers and acquisitions that have occurred in the financial guaranty market and also includes adjustments to the carrying value of unearned premium reserve for stressed losses, ceding commissions and return on capital. The Company classified the fair value of financial guaranty insurance contracts as Level 3.

C. Fair Values for All Financial Instruments by Levels 1, 2 and 3

The table below reflects the fair values and admitted values of all admitted assets and liabilities that are financial instruments excluding those accounted for under the equity method. The fair values are also categorized into the three-level fair value hierarchy as described in Note 20A.

Type of Financial Instrument	Fair Value	Admitted Value	Level 1	Level 2	Level 3	Net Asset Value	Not Practicable (Carrying Value)
Bonds	\$1,881,957,760	\$1,917,128,719	\$ —	\$1,447,239,779	\$ 434,717,981	\$ —	\$ —
Cash, cash equivalents and short-term investments	232,330,810	232,330,810	41,989,804	190,341,006	—	—	—

21. Other Items

B, C, D, E, G, H. There has been no change since the 2022 Annual Statement.

A. Unusual or Infrequent Items

*Inflation*

By some key measures consumer price inflation in the U.S. and the U.K. was higher in recent years than it has been in decades, and interest rates generally increased. Consumer price inflation in the U.K. impacts the Company by increasing exposure for certain index-linked U.K. debt with par that accretes with increasing inflation, and also increasing projected future installment premiums on the portion of such exposure that pays at least some of the premium on an installment basis over the term of the exposure. Consumer price inflation may also impact the Company indirectly to the extent it makes it more difficult for obligors to make their debt payments and may be accompanied by higher interest rates that could impact the Company in several ways.

After acknowledging the need to combat inflation, the Federal Open Market Committee (“FOMC”) of the Federal Reserve Board decided at its March 2022 meeting to start again raising the target federal funds rate, and raised the rate 11 times from March 2022 through July 26, 2023. At its July 25-26, 2023 meeting, the FOMC raised the federal funds target rate by 25 bps to 5.25% to 5.5%, and stated that its decision to raise the target range of the federal funds rate was in support of its goals of achieving maximum employment and inflation at the rate of 2% over the longer run. In determining the extent to which additional federal funds target rate increases are needed to return inflation to 2% over time, the FOMC indicated it will take into account the cumulative tightening of monetary policy, the lags with which monetary policy affects economic activity and inflation, and economic and financial developments.

Higher interest rates impact the Company in numerous other ways. For example, higher interest rates are often accompanied by wider credit spreads, which may make the Company’s credit enhancement products more attractive in the market and increase the level of premiums it can charge for that product. Despite the increases in interest rates in 2022 and first half of 2023, the pace of credit spread widening was more modest and market penetration of municipal bond insurance in the U.S. public finance market remained relatively flat compared to 2021. Over time, higher interest rates also increase the amount the Company can earn on its largely fixed-maturity investment portfolio. However, higher interest rates may, in turn, reduce the fair value of its largely fixed-rate fixed-maturity investment portfolio, dampen municipal bond issuance and negatively impact the finances of some insured obligors.

*Russia’s Invasion of Ukraine*

Russia’s invasion of Ukraine has led to the imposition of economic sanctions by many western countries against Russia and certain Russian individuals, dislocation in global energy markets, massive refugee movements, and payment default by certain Russian credits. The economic sanctions imposed by western governments, along with decisions by private companies regarding their presence in Russia, continue to reduce western economic ties to Russia and to reshape global economic and political ties more generally, and the Company cannot predict all of the potential effects of the conflict on the world or on the Company.

The Company’s surveillance and treasury functions have reviewed the Company’s insurance and investment portfolios, respectively, and have identified no material direct exposure to Ukraine or Russia. In fact, the Company’s direct insurance exposure to eastern Europe generally is limited to approximately \$5 million in net par outstanding as of June 30, 2023, comprising \$2 million net par exposure to the sovereign debt of Poland and \$3 million net par exposure to a toll road in Hungary. The Company rates the toll road exposure below investment grade (“BIG”).

F. Subprime Mortgage-Related Risk Exposure  
(1) through (3)

STATEMENT AS OF JUNE 30, 2023 OF ASSURED GUARANTY CORP.

The Company purchased securities with subprime mortgage related exposures that it has insured, and for which it had loss reserves, in order to mitigate the economic effect of insured losses (“loss mitigation securities”). These securities were purchased at a discount and are accounted for excluding the effects of the Company's insurance on the securities. As of June 30, 2023, the majority of the investment portfolio is managed by three outside managers. The Company has established detailed guidelines regarding credit quality, exposure to a particular sector and exposure to a particular obligor within a sector. In accordance with the Company’s investment guidelines, each of the three external investment managers is required to maintain the Company’s investment portfolio with an overall credit quality rated at a minimum of A+/A1/A+ by S&P/Moody’s/Fitch Inc., respectively.

As of June 30, 2023	Actual Cost	Book Value	Fair Value	OTTI Losses Recognized
Residential mortgage-backed securities	\$ 3,636,645	\$ 3,500,981	\$ 3,105,034	\$ (2,006,470)
Other loan-backed and structured securities	456,993	456,993	400,961	(60,476)
Total	\$ 4,093,638	\$ 3,957,974	\$ 3,505,995	\$ (2,066,946)

(4) Underwriting Exposure

Exposure to Puerto Rico

The Company had insured exposure to obligations of various authorities and public corporations of Puerto Rico as well as its general obligation bonds aggregating \$310 million net par outstanding as of June 30, 2023, and \$312 million as of December 31, 2022. All of the Company's insured exposure to Puerto Rico is rated BIG. The Company has paid claims as a result of payment defaults on all of its outstanding Puerto Rico exposures except the Municipal Finance Agency (“MFA”), the Puerto Rico Aqueduct and Sewer Authority (“PRASA”) and the University of Puerto Rico (“U of PR”), each of which has continued to make timely debt service payments.

On June 30, 2016, PROMESA was signed into law. PROMESA established a seven-member FOMB with authority to require that balanced budgets and fiscal plans be adopted and implemented by Puerto Rico. Title III of PROMESA provides for a process analogous to a voluntary bankruptcy process under Chapter 9 of the United States Bankruptcy Code.

After over five years of negotiations, a substantial portion of the Company’s Puerto Rico exposure was resolved in 2022 in accordance with four orders entered by the Federal District Court of Puerto Rico related to the Company's exposure to all insured Puerto Rico credits experiencing payment default in 2022 except PREPA ("2022 Puerto Rico Resolutions"). As a result of the 2022 Puerto Rico Resolutions, during 2022 the Company’s obligations under its insurance policies covering debt of the Puerto Rico Convention Center District Authority ("PRCCDA") and Puerto Rico Infrastructure Authority ("PRIFA") were extinguished, and its insurance exposure to Puerto Rico general obligations ("GO") bonds, Public Buildings Authority ("PBA") bonds and Puerto Rico Highway and Transportation Authority ("PRHTA") bonds was greatly reduced.

Under the Modified Eighth Amended Title III Joint Plan of Adjustment of the Commonwealth of Puerto Rico, the Employees Retirement System of the Government of the Commonwealth of Puerto Rico, and the Puerto Rico Public Buildings Authority ("GO/PBA Plan") the Company received cash, new general obligation bonds ("New GO Bonds") and contingent value instruments ("CVIs"). In connection with the Modified Fifth Amended Title III Plan of Adjustment for PRHTA ("HTA Plan") and related arrangements, the Company received cash and new bonds backed by toll revenues ("Toll Bonds", and together with the New GO Bonds, "New Recovery Bonds") from the PRHTA and CVIs from the Commonwealth. Cash, New Recovery Bonds and CVIs received pursuant to the 2022 Puerto Rico Resolutions are collectively referred to as Plan Consideration.

Plan Consideration is reported in either cash, investments or salvage recoverable as described below.

- Investments and cash. Plan Consideration (other than CVI) received in respect of bondholders whose principal of bonds insured by the Company were accelerated against the Commonwealth and became due and payable under the 2022 Puerto Rico Resolutions are reported in Cash and Investments.
- CVIs. The CVIs are reported as a component of salvage recoverable.

The Company has sold a portion of the New Recovery Bonds and CVIs and may sell in the future any New Recovery Bonds or CVIs it continues to hold. The fair value of any New Recovery Bonds and CVIs that the Company retains will fluctuate from their date of acquisition. Any gains or losses on sales of New Recovery Bonds in the investment portfolio are reported as realized gains and losses on investments rather than loss and loss adjustment expense ("LAE"). Any changes in value of CVIs will be reported as losses incurred rather than realized gains and losses on investments.

The CVIs are intended to provide creditors with additional recoveries tied to the outperformance of the Puerto Rico 5.5% Sales and Use Tax ("SUT") receipts against May 2020 certified fiscal plan projections, subject to annual and lifetime caps. The notional amount of a CVI represents the sum of the maximum distributions the holder could receive under the CVI, subject to the cumulative and annual caps, if the SUT sufficiently exceeds 2020 certified fiscal plan projections, without any discount for time.

The Company is continuing its efforts to resolve the one remaining Puerto Rico insured exposure that is in payment default, PREPA. Economic, political and legal developments, including inflation and increases in the cost of petroleum products, may impact any resolution of the Company’s PREPA insured exposure and the value of any remaining consideration received in connection with the 2022 Puerto Rico Resolutions or any future resolutions of the Company’s PREPA insured exposures. The impact of developments relating to Puerto Rico during any quarter or year could be material to the Company’s results of operations and shareholders’ equity.

## STATEMENT AS OF JUNE 30, 2023 OF ASSURED GUARANTY CORP.

### ***PREPA***

As of June 30, 2023, the Company had \$69 million insured net par outstanding of PREPA obligations. The Company believes that the PREPA obligations are secured by a lien on the revenues of the electric system. On May 3, 2019, AGM and AGC entered into a restructuring support agreement (“RSA”) with PREPA and other stakeholders, including a group of uninsured PREPA bondholders, the Commonwealth and the FOMB (“PREPA RSA”). This agreement was terminated by Puerto Rico on March 8, 2022.

On April 8, 2022, Judge Laura Taylor Swain of the Federal District Court of Puerto Rico issued an order appointing as members of a PREPA mediation team U.S. Bankruptcy Judges Shelley Chapman (lead mediator), Robert Drain and Brendan Shannon. Judge Swain also entered a separate order establishing the terms and conditions of mediation, including that the mediation would terminate on June 1, 2022. Judge Swain has since extended the term of such mediation several times, most recently on July 25, 2023 extending the term to October 30, 2023. The FOMB initially filed a plan of adjustment and disclosure statement for PREPA with the Federal District Court of Puerto Rico on December 16, 2022, and filed an amended version on February 9, 2023 (“FOMB PREPA Plan”). The Company expects that a confirmation hearing for the FOMB PREPA Plan will be held in fourth quarter 2023 or first quarter of 2024. The FOMB PREPA Plan would split bondholders into two groups: one that would settle litigation regarding whether that creditor repayment is limited to existing accounts, and another group that would continue litigating that bondholders have a right to PREPA’s current and future revenue collections. The FOMB PREPA Plan provides for lower recoveries to bondholders than did previous agreements the FOMB reached with bondholders. The Federal District Court of Puerto Rico approved the PREPA disclosure statement on February 28, 2023, which allowed bondholder solicitation on the FOMB PREPA Plan to begin.

On March 22, 2023, the Federal District Court of Puerto Rico held that the PREPA bondholders had perfected liens only in revenues that had been deposited in the sinking fund established under the PREPA trust agreement and related funds over which the bond trustee had control but did not have a lien in future revenues until deposited in those funds. The Federal District Court of Puerto Rico also held, however, that PREPA bondholders do have recourse under the PREPA trust agreement in the form of an unsecured net revenue claim. At that time, the Federal District Court of Puerto Rico declined to value the unsecured net revenue claim or the method for its determination. The ultimate value of the claim, according to the Federal District Court of Puerto Rico should be determined through a claim estimation proceeding.

On June 6-8, 2023, the Federal District Court of Puerto Rico held a claim estimation proceeding and, on June 26, 2023, issued an opinion and order estimating the unsecured net revenue claim to be \$2.4 billion as of July 3, 2017. This estimate included a determination that PREPA’s discounted cash flows, using FOMB’s base-case incremental net revenues over a 100-year collection period and a discount rate of 7%, would be \$3.0 billion, and should be reduced by an additional 20% for “risk of success in achieving the projected cash flow through the actions of a receiver and other equitable remedies appropriate”. PREPA bondholders had sought an unsecured net revenue claim of approximately \$8.5 billion.

The Company expects to appeal portions of the March 22, 2023 decision, including the lien scope ruling and the need for a claim estimation proceeding, as well as the June 26, 2023 claim estimate ruling, upon final adjudication by the Federal District Court of Puerto Rico of all claims and counterclaims in the PREPA lien challenge proceedings.

The last revised fiscal plan for PREPA was certified by the FOMB on June 23, 2023 (“2023 PREPA Fiscal Plan”). In the 2023 PREPA Fiscal Plan, FOMB asserts that, other than for pension claims, PREPA’s debt capacity is \$2.5 billion, of which approximately \$1.4 billion is allocated to settling creditors. The remaining \$1.1 billion is allocated pro rata to (i) non-settling bondholders, and (ii) general unsecured creditors (“GUCs”). The Federal District Court of Puerto Rico extended to August 11, 2023 the deadline for FOMB to file a further amended FOMB PREPA Plan based on the 2023 PREPA Fiscal Plan. The Company believes that a further revised FOMB PREPA Plan would provide for reduced payments to bondholders since lower projected PREPA revenues are included in the 2023 PREPA Fiscal Plan than had been previously anticipated. Since the Federal District Court of Puerto Rico’s estimated unsecured net revenue claim exceeds the \$1.1 billion available to non-settling bondholders and GUCs under the 2023 PREPA Fiscal Plan, the unsecured net revenue claim may be subject to further impairment. The 2023 PREPA Fiscal Plan contemplates that non-settling bondholders will receive at least 12.5% of their allowed claim in the form of restructuring bonds, as well as two CVIs allocated based on their allowed claim.

### ***PRHTA, Puerto Rico GO and PBA***

As of June 30, 2023, the Company had \$210 million of insured net par outstanding of PRHTA bonds: \$181 million insured net par outstanding of PRHTA (transportation revenue) bonds and \$29 million insured net par outstanding of PRHTA (highway revenue) bonds. PRHTA net par outstanding represents the Company’s exposure in respect of insured bondholders who elected to receive custody receipts that represent an interest in the legacy insurance policy plus Toll Bonds that constitute distributions under the HTA Plan.

As of June 30, 2023, the Company had remaining \$19 million of insured net par outstanding of GO bonds and \$4 million of insured net par outstanding of PBA bonds. GO/PBA net par outstanding represents the Company’s exposure in respect of insured bondholders who elected to receive custody receipts that represent an interest in the legacy insurance policy plus cash, New GO Bonds and CVIs that constitute distributions under the GO/PBA Plan.

On July 28, 2023, the Company directed the trustee to notify certain holders of custody receipts representing interests in legacy insured GO, PBA and HTA bonds of its intent to satisfy on August 31, 2023 its obligations under the legacy insured bonds with respect to \$71 million direct par outstanding as of July 28, 2023, and, following payment of such obligations, the Company will receive the New Recovery Bonds and/or CVIs with notional amounts and maturity values totaling \$55 million as of July 28, 2023, held as collateral with respect to the custodial trusts.

### ***Other Puerto Rico Exposures***

All debt service payments for the Company’s remaining Puerto Rico exposures of \$7 million insured net par outstanding have been made in full by the obligors as of the date of this filing. These exposures consist primarily of \$6 million net par outstanding of MFA bonds, which are secured by a lien on local tax revenues.

STATEMENT AS OF JUNE 30, 2023 OF ASSURED GUARANTY CORP.

U.S. Public Finance Loss and LAE

The Company had loss and LAE reserves across its troubled U.S. public finance exposures as of June 30, 2023, including those mentioned above, of \$10.2 million compared to \$32.8 million as of December 31, 2022. The Company’s loss and LAE reserves incorporate management’s probability weighted estimates of possible scenarios. Each quarter, the Company may revise its scenarios and update its assumptions, including the probability weightings of its scenarios based on public information as well as nonpublic information obtained through its surveillance and loss mitigation activities. Management assesses the possible implications of such information on each insured obligation, considering the unique characteristics of each transaction.

The decrease was attributable to loss and LAE payments of \$1.5 million offset by a loss and LAE incurred of \$(21.0) million (both of which are primarily due to Puerto Rico exposures). The development attributable to the Company’s Puerto Rico exposures reflects adjustments the Company made to the assumptions and weightings it uses in its scenarios based on the public information summarized in Note 14, Liabilities, Contingencies and Assessments, as well as nonpublic information related to its loss mitigation activities during the periods presented.

U.S. RMBS Loss Projections

The Company projects losses on its insured U.S. RMBS on a transaction-by-transaction basis by projecting the performance of the underlying pool of mortgages over time and then applying the structural features (i.e., payment priorities and tranching) of the RMBS and any expected representation and warranty (“R&W”) recoveries/payables to the projected performance of the collateral over time. The resulting projected claim payments or reimbursements are then discounted using a rate of 3.5% in 2023 and year-end 2022, the approximate pre-tax book yield on the Company's investment portfolio.

Each period the Company reviews the assumptions it uses to make RMBS loss projections with consideration of updates on the performance of its insured transactions (including early-stage delinquencies, late-stage delinquencies and loss severity) as well as the residential property market and economy in general. To the extent it observes changes, it makes a judgment as to whether those changes are normal fluctuations or part of a more prolonged trend. In the first six months of 2023, there was an economic loss of \$2 million for first lien U.S. RMBS and an economic loss of \$11 million for second lien U.S. RMBS. The assumptions that the Company uses to project RMBS losses are shown in the sections below.

First Lien U.S. RMBS Loss Projections: Alt-A, Prime, Option ARM and Subprime

The majority of projected losses in first lien U.S. RMBS transactions are expected to come from non-performing mortgage loans (those that are or have recently been two or more payments behind, have been modified, are in foreclosure, or have been foreclosed upon). Changes in the amount of non-performing loans from the amount projected in the previous period are one of the primary drivers of loss projections in this portfolio. In order to project the number of defaults arising from these delinquent and foreclosed loans, the Company applies a liquidation rate assumption to loans in each of various non-performing categories. The Company arrived at its liquidation rates based on data purchased from a third-party provider and assumptions about how delays in the foreclosure process and loan modifications may ultimately affect the rate at which loans are liquidated. Each quarter the Company reviews recent data and (if necessary) adjusts its liquidation rates based on its observations. The following table shows liquidation assumptions for various non-performing and re-performing categories.

While the Company uses the liquidation rates above to project defaults of non-performing loans (including current loans that were recently modified or delinquent), it projects defaults on presently current loans by applying a conditional default rate ("CDR") curve. The start of that CDR curve is based on the defaults the Company projects will emerge from currently nonperforming, recently nonperforming and modified loans. The total amount of expected defaults from the non-performing loans is translated into a constant CDR (i.e., the “CDR plateau”), which, if applied for each of the next 36 months, results in the projection of the defaults that are expected to emerge from the various delinquency categories. The CDR thus calculated

STATEMENT AS OF JUNE 30, 2023 OF ASSURED GUARANTY CORP.

individually on the delinquent collateral pool for each RMBS is then used as the starting point for the CDR curve used to project defaults of the presently performing loans.

In the most heavily weighted scenario (the “base scenario”), after the 36-month CDR plateau period, each transaction’s CDR is projected to improve over 12 months to a final CDR of 5% of the plateau CDR. In the base scenario, the Company assumes the final CDR will be reached one year after the 36-month CDR plateau period. Under the Company’s methodology, defaults projected to occur in the first 36 months represent defaults that can be attributed to loans that were recently modified or delinquent, or that are currently delinquent or in foreclosure, while the defaults projected to occur using the projected CDR trend after the first 36-month period represent defaults attributable to borrowers that are currently performing or are projected to re-perform.

Another important driver of loss projections is loss severity, which is the amount of loss the transaction incurs on a loan after the application of net proceeds from the disposal of the underlying property. The Company assumes in the base scenario that recent (still historically elevated) loss severities will improve after loans with accumulated delinquencies and foreclosure cost are liquidated. The Company is assuming in the base scenario that the recent levels generally will continue for another 18 months. The Company determines its initial loss severity based on actual recent experience. Each quarter the Company reviews available data and (if necessary) adjusts its severities based on its observations. The Company then assumes that loss severities begin returning to levels consistent with underwriting assumptions beginning after the initial 18-month period, declining to 40% in the base scenario over 2.5 years.

The following table shows the range as well as the average, weighted by outstanding net insured par, for key assumptions used in the calculation of loss reserves for individual transactions for vintage 2004 - 2008 first lien U.S. RMBS.

The rate at which the principal amount of loans is voluntarily prepaid may impact both the amount of losses projected (since that amount is a function of the CDR, the loss severity and the loan balance over time) as well as the amount of excess spread (the amount by which the interest paid by the borrowers on the underlying loan exceeds the amount of interest owed on the insured obligations). The assumption for the voluntary conditional prepayment rate (“CPR”) follows a pattern similar to that of the CDR. The current level of voluntary prepayments is assumed to continue for the plateau period before gradually increasing over 12 months to the final CPR, which is assumed to be 15% in the base scenario. For transactions where the initial CPR is higher than the final CPR, the initial CPR is held constant, and the final CPR is not used. These CPR assumptions are the same as those the Company used for December 31, 2022.

The Company incorporates a recovery assumption into its reserving model to reflect observed trends in recoveries of deferred principal balances of modified first lien loans that had been previously written off. For transactions where the Company has detailed loan information, the Company assumes, in the base scenario, that 20% of the deferred loan balances will eventually be recovered upon sale of the collateral or refinancing of the loans. In the first quarter of 2023, in light of recent volatility in interest rates, the mortgage market, and home prices, the Company also began incorporating a 10% recovery of deferred principal balances in the most stressful scenario and a 50% recovery in the least stressful scenario.

In estimating loss reserves, the Company modeled and probability weighted sensitivities for first lien U.S. RMBS transactions by varying its assumptions of how fast a recovery is expected to occur. One of the variables used to model sensitivities was how quickly the CDR returned to its modeled equilibrium, which was defined as 5% of the plateau CDR. The Company also stressed CPR and the speed of recovery of loss severity rates. The Company probability weighted a total of five scenarios as of June 30, 2023, and December 31, 2022.

Total loss and LAE reserves on all first lien U.S. RMBS were \$94 million and \$91 million as of June 30, 2023, and December 31, 2022, respectively. The increase in reserves was due to weaker performance on certain transactions.

Certain transactions benefit from excess spread when they are supported by large portions of fixed rate assets (either originally fixed or modified to be fixed) but have insured floating rate debt linked to London Interbank Offered Rate ("LIBOR"). An increase in projected LIBOR decreases excess spread, while lower LIBOR results in higher excess spread.

## STATEMENT AS OF JUNE 30, 2023 OF ASSURED GUARANTY CORP.

As previously announced by the ICE Benchmark Administration and the Financial Conduct Authority, publication of LIBOR was discontinued after June 30, 2023. The Company believes that the reference to LIBOR in such floating rate RMBS debt has been, or will be, replaced by operation of law in accordance with federal legislation enacted in March 2022, with a rate based on the Secured Overnight Finance Rate.

The Company used a similar approach to establish its scenarios as of June 30, 2023, as it used as of December 31, 2022, increasing and decreasing the periods of stress from those used in the base scenario, but, as mentioned above, it updated the assumed recovery for deferred principal balances for the most stressful and least stressful scenarios (to 10% and 50%, respectively) compared to December 31, 2022 (when 20% was assumed in all scenarios). In the Company's most stressful scenario where 10% of deferred principal balances were recovered, loss severities were assumed to rise and then recover over nine years and the initial ramp-down of the CDR was assumed to occur over 16 months, expected loss to be paid would increase from current projections by approximately \$7 million for all first lien U.S. RMBS transactions. In the Company's least stressful scenario where 50% of deferred principal balances are assumed to be recovered, the CDR plateau was six months shorter (30 months, effectively assuming that liquidation rates would improve) and the CDR recovery was more pronounced (including an initial ramp-down of the CDR over eight months), expected loss to be paid would decrease from current projections by approximately \$10 million for all first lien U.S. RMBS transactions.

### *Second Lien U.S. RMBS Loss Projections*

Second lien U.S. RMBS transactions include both home equity lines of credit ("HELOC") and closed end second lien mortgages. The Company believes the primary variable affecting its loss reserves in second lien RMBS transactions is the amount and timing of future losses or recoveries in the collateral pool supporting the transactions (including recoveries from previously charged-off loans). Loss reserves are also a function of the structure of the transaction, the prepayment speeds of the collateral, the interest rate environment, and assumptions about loss severity.

The Company estimates the amount of loans that will default over the next several years by first calculating expected liquidation rates for delinquent loans, and applying liquidation rates to currently delinquent loans in order to arrive at an expected dollar amount of defaults from currently delinquent collateral (plateau period defaults).

Similar to first lien U.S. RMBS transactions, the Company then calculates a CDR that will cause the targeted amount of liquidations to occur during the plateau period.

For the base scenario, the CDR (the "plateau CDR") is held constant for 36 months. Once the plateau period ends, the CDR is assumed to trend down in uniform increments for one year to its final long-term steady state CDR (5% of original plateau).

HELOC loans generally permitted the borrower to pay only interest for an initial period (often ten years) and, after that period, require the borrower to make both the monthly interest payment and a monthly principal payment. This causes the borrower's total monthly payment to increase, sometimes substantially, at the end of the initial interest-only period. A substantial number of loans in the Company's insured transactions had been modified to extend the interest-only period to 15 years. The majority of the modified loans had reset to fully amortizing by the end of 2022, and most of the remaining loans will reset over the next several years.

Recently, the Company has observed the performance of the modified loans that have finally reset to full amortization (which represent the majority of extended loans), and noted low levels of delinquency, even with substantial increases in monthly payments. This observed performance lowers the level of uncertainty regarding this modified cohort as the remainder continue to reset.

When a second lien loan defaults, there is generally a low recovery. The Company assumed, as of June 30, 2023, and December 31, 2022, that it will generally recover 2% of future defaulting collateral at the time of charge-off, with additional amounts of post charge-off recoveries projected to come in over time. A second lien on the borrower's home may be retained in the Company's second lien transactions after the loan is charged off and the loss applied to the transaction, particularly in cases where the holder of the first lien has not foreclosed. If the second lien is retained and the value of the home increases, the servicer may be able to use the second lien to increase recoveries, either by arranging for the borrower to resume payments or by realizing value upon the sale of the underlying real estate. The Company evaluates its assumptions quarterly based on actual recoveries of charged-off loans observed from period to period and reasonable expectations of future recoveries. In instances where the Company is able to obtain information on the lien status of charged-off loans, it assumes there will be a certain level of future recoveries of the balance of the charged-off loans where the second lien is still intact. The Company's base scenario recovery assumption for charged-off loans is 30%, as shown in the table below, based on observed trends and reasonable expectations of future recoveries. Such recoveries are assumed to be received evenly over the next five years. In the first quarter of 2023, in light of recent volatility in interest rates, the mortgage market, and home prices, as with the first lien deferred principal balances detailed earlier, the Company also began incorporating a 10% recovery of charged-off loan balances in the most stressful scenario and a 50% recovery in the least stressful scenario. The effect on expected losses of this refinement in methodology was less than \$1 million.

The rate at which the principal amount of loans is prepaid may impact both the amount of losses projected as well as the amount of excess spread. In the base scenario, an average CPR (based on experience of the past year) is assumed to continue until the end of the plateau before gradually increasing to the final CPR over the same period the CDR decreases. The final CPR is assumed to be 15% for second lien U.S. RMBS transactions (in the base scenario), which is lower than the historical average but reflects the Company's continued uncertainty about the projected performance of the borrowers in these transactions. For transactions where the initial CPR is higher than the final CPR, the initial CPR is held constant and the final CPR is not used. This pattern is consistent with how the Company modeled the CPR as of December 31, 2022. To the extent that prepayments differ from projected levels, the Company's projected excess spread and losses could materially change.

In estimating loss reserves, the Company modeled and probability weighted five scenarios, each with a different CDR curve applicable to the period preceding the return to the long-term steady state CDR. The Company believes that the level of the elevated CDR and the length of time it will persist and the ultimate prepayment rate are the primary drivers of the amount of losses the collateral will likely suffer.

STATEMENT AS OF JUNE 30, 2023 OF ASSURED GUARANTY CORP.

The following table shows the range as well as the average, weighted by net par outstanding, for key assumptions used in the calculation of loss reserves for individual transactions for vintage 2004 - 2008 HELOCs.

Key Assumptions in Base Scenario Loss Reserve Estimates  
HELOCs

	As of June 30, 2023		As of December 31, 2022	
	Range	Weighted Average	Range	Weighted Average
Plateau CDR	0.9% - 5.8%	3.2%	2.0% - 8.4%	3.9%
Final CDR trended down to	0.0% - 0.3%	0.2%	0.1% - 0.4%	0.2%
Liquidation rates:				
Current but recently delinquent	20%		20%	
30 - 59 Days Delinquent	30		30	
60 - 89 Days Delinquent	40		40	
90+ Days Delinquent	60		60	
Bankruptcy	55		55	
Foreclosure	55		55	
Real Estate Owned	100		100	
Loss severity on future defaults	98%		98%	
Projected future recoveries on previously charged-off loans	30%		30%	

The Company continues to evaluate the assumptions affecting its modeling results. The Company believes the most important driver of its projected second lien RMBS losses is the performance of its HELOC transactions. Total net expected recoverables for all second lien U.S. RMBS were \$26 million as of June 30, 2023, and \$27 million as of December 31, 2022. After giving effect to losses paid of \$11 million in 2023, the economic loss was primarily attributable to the return of certain amounts previously received for one of the Company's HELOC transactions, partially offset by higher recoveries for charged-off loans.

The Company modeled scenarios with a longer period of elevated defaults and others with a shorter period of elevated defaults. In the Company's most stressful scenario, assuming 10% recoveries on charged-off loans, increasing the CDR plateau to 42 months and increasing the ramp-down by four months to 16 months (for a total stress period of 58 months) would decrease the expected recovery by approximately \$12 million for HELOC transactions. On the other hand, in the Company's least stressful scenario, assuming 50% recoveries on charged-off loans, reducing the CDR plateau to 30 months and decreasing the length of the CDR ramp-down to eight months (for a total stress period of 38 months), and lowering the ultimate prepayment rate to 10% would increase the expected recovery by approximately \$12 million for HELOC transactions.

Life Insurance Transactions

The Company also had exposure to troubled life insurance transactions with BIG net par of \$86 million as of June 30, 2023.

ORGANIZATIONAL CHART OF ASSURED GUARANTY LTD.  
Footnotes for Part IV and Part V

Footnotes for Part IV and Part V:

- 4. Assured Investment Management LLC is an investment adviser registered with the U.S. Securities and Exchange Commission (“SEC”) that manages the various funds set forth in Part IV and Part V. Assured Healthcare Partners LLC is also an investment adviser registered with the SEC that manages the “AHP” funds set forth on Part V.
- 5. Assured Investment Management GP Holdings LLC is the sole member of various limited liabilities companies that, in turn, act as the general partner of, and thereby control, various funds established as “LP” entities, as indicated in Part IV and Part V. Such funds pursue a diversified set of alternative investment strategies. Certain of the funds have established special purpose vehicles to hold a particular investment of the relevant fund. In addition, certain of the funds may hold controlling interests in underlying investments, whether through ownership of a controlling equity stake, board membership or otherwise. Unless otherwise noted, the substantial majority of the limited partnership interests of each fund is held by third parties. Certain affiliated entities and Assured Investment Management LLC employees may also invest in the limited partnership interests of the various funds.
- 6. Assured Investment Management LLC controlled various legacy fund entities that were in the process of being wound up, and this process is being handled by PwC Corporate Finance & Recovery (Cayman) Limited as of June 30, 2023. Assured Municipal Relative Value Fund Ltd.’s formal dissolution date was confirmed to be September 29, 2023.
- 7. Assured Investment Management LLC has established entities to issue collateralized loan obligations (“CLOs”) sponsored and managed by Assured Investment Management LLC (“CLO Entities”). The CLO Entities are each controlled by an independent board of directors, but Assured Investment Management LLC exercises voting and investment control over the assets of each CLO Entity backing its CLOs.
- 8. The substantial majority of the fund’s limited partnership interests is held by AG Asset Strategies LLC (shown on Part I).
- 9. The dotted line ( - - ) represents a limited partnership interest. Certain of the funds represented on this chart act as “feeder funds” that aggregate the investments of third-party investors to the downstream “master funds”.
- 10. Assured Investment Management LLC is the manager of Timberline Onshore, LLC, which has certain current and former employees as members.
- 11. BlueMountain Montenvers GP S.à r.l. controls each of BlueMountain Montenvers Fund SCA SICAV-SIF and BlueMountain Montenvers Master Fund SCA SICAV-SIF through a management agreement and the control relationship is akin to a general partnership interest.
- 12.
